America Challenged Princeton Legacy Library:

America Challenged William Orville Douglas, 2015-12-08 Justice Douglas surveys our national situation finds it ominously defective at several points and with a practicality that matches his sense of alarm and urgency shows what must be done to safeguard the American future Originally published in 1960 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 The Global Challenge of Peace Matt Perry, 2021 During 1919 the Great Powers redrew the map of the world Yet 1919 was a complex threshold between war and peace contested on a global scale This process began prior to war s end with mutinies labour and consumer unrest colonial revolt but reached a high point in 1919 **Political Economy, Race, and the Image of Nature in the United States, 1825-1878** Evan Robert Neely, 2024-05-01 Political Economy Race and the Image of Nature in the United States 1825 1878 is an interdisciplinary work analyzing the historical origins of a dominant concept of Nature in the culture of the United States during the period of its expansion across the continent Chapters analyze the ways in which Nature became a discursive site where theories of race and belonging adaptation and environment and the uses of literary and pictorial representation were being renegotiated forming the basis for an ideal of the human and the nonhuman world that is still with us Through an interdisciplinary approach involving the fields of visual culture political economy histories of racial identity and ecocritical studies the book examines the work of seminal figures in a variety of literary and artistic disciplines and puts the visual culture of the United States at the center of intellectual trends that have enormous implications for contemporary cultural practice The book will be of interest to scholars working in art history visual culture American studies environmental studies ecocriticism critical race theory and semiotics **The Greek Revolution in the Age of Revolutions (1776-1848)** Paschalis M. Kitromilides, 2021-09-09 The Greek Revolution in the Age of Revolutions 1776 1848 brings together twenty one scholars and a host of original ideas revisionist arguments and new information to mark the bicentennial of the Greek Revolution of 1821 The purpose of this volume is to demonstrate the significance of the Greek liberation struggle to international history and to highlight how it was a turning point that signalled the revival of revolution in Europe after the defeat of the French Revolution in 1815 It argues that the sacrifices of rebellious Greeks paved the way for other resistance movements in European politics culminating in the spring of European peoples in 1848 Richly researched and innovative in approach this volume also considers the diplomatic and transnational aspects of the insurrection and examines hitherto unexplored dimensions of revolutionary change in the Greek world This book will appeal to scholars and students of the Age of Revolution as well as those interested in comparative and transnational history political theory and constitutional

law **Governing Extractive Industries** Anthony Bebbington, Abdul-Gafaru Abdulai, Denise Humphreys Bebbington, Marja Hinfelaar, Cynthia Sanborn, 2018-06-11 This is an open access title available under the terms of a CC BY NC ND 4.0 International licence. It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations. Proposals for more effective natural resource governance emphasize the importance of institutions and governance but say less about the political conditions under which institutional change occurs. *Governing Extractive Industries* synthesizes findings regarding the political drivers of institutional change in extractive industry governance. It analyses resource governance from the late nineteenth century to the present in Bolivia, Ghana, Peru and Zambia, focusing on the ways in which resource governance and national political settlements interact. The authors focus on the ways in which resource governance and national political settlements interact, exploring the nature of elite politics, the emergence of new political actors, forms of political contention, changing ideas regarding natural resources and development, the geography of natural resource deposits and the influence of the transnational political economy of global commodity production.

Tobacco Goes to College Elizabeth Crisp Crawford, 2014-03-24 This is the first book to document the history of cigarette advertising on college and university campuses. From the 1920s to the 1960s, such advertisers had a strong financial grip on student media and thus a degree of financial power over colleges and universities across the nation. The tobacco industry's strength was so great many doubted whether student newspapers and other campus media could survive without them. When the Tobacco Institute, the organization that governed the industry, decided to pull their advertising in June of 1963, nearly 2,000 student publications needed to recover up to 50 percent of their newly lost revenue. Although student newspapers are the main focus of this book, tobacco's presence on campus permeated more than just the student paper. Cigarette brands were promoted at football games, on campus radio, and through campus representatives, and promotional items were placed on campus in locations such as university stores and the student union.

Change and Challenge in Library and Information Science Education Margaret F. Stieg, Margaret Stieg Dalton, 1992 Caught between university administrators and a vocal profession, library schools are in the position of having to satisfy two sets of expectations that have become increasingly incompatible.

The American Liberal Tradition Reconsidered Mark Hulliung, 2010 Eight prominent scholars consider whether Louis Hartz's interpretation of liberalism in his classic 1955 book should be repudiated or updated and whether a study of America as a liberal society is still a rewarding undertaking.

He Shall Not Pass This Way Again Stephen L. Wasby, 1990 This is a collection of the papers of a 1989 conference held in recognition of the 50th anniversary of Justice Douglas's appointment to the Supreme Court. Wasby presents the views of 25 scholars on Douglas's constitutional perspectives on the First Amendment, civil rights, criminal law, privacy, the environment, and internationalism, recorded during his record-breaking service of 36 years. The analysts contend that Douglas's contributions to constitutional law are not impressive and that his opinions were often terse, obscure, easy to ignore, and

usually devoid of any doctrinal content They nevertheless agree that his defense of civil liberties in crisis times his concern for American Indians and the environment his liberal constitutional internationalism and his famous opinion on the right to privacy in *Griswold v Connecticut* 1965 serve to give Douglas a high rank among the justices ISBN 0 8229 3644 5 39 95

Princeton Legacy Library Ebook Package American History , American Legacy ,2005 **Native Activism in Cold War America** Daniel M. Cobb,2008 Broadens the scope and meaning of American Indian political activism by focusing on the movement s early and largely neglected struggles revealing how early activists exploited Cold War tensions in ways that brought national attention to their issues **Divergent Visions, Contested Spaces** Jeffrey Hotz,2006 This volume is a collection of all new original essays covering everything from feminist to postcolonial readings of the play as well as source queries and analyses of historical performances of the play *The Merchant of Venice* is a collection of seventeen new essays that explore the concepts of anti-Semitism the work of Christopher Marlowe the politics of commerce and making the play palatable to a modern audience The characters Portia and Shylock are examined in fascinating detail With in depth analyses of the text the play in performance and individual characters this book promises to be the essential resource on the play for all Shakespeare enthusiasts **The Hungarian Legacy in America** ,2007 In 1941 Elmhurst College established the only Hungarian Department in the United States and gave the responsibility of developing its program to Dr Barnabas Dienes His work was the basis of what by the 1950s had developed into a significant repository of cultural linguistic and social research August J Molnar guided growing entity to become a foundation which began its activity in 1955 As part of the expansion program the Foundation began working with Rutgers SUNJ and relocated to that campus in 1959 where it remains today
