Krishna Reddy, 2021-01-02 This book constitutes the proceedings of the 8th International Conference on Big Data Analytics BDA 2020 which took place during December 15-18, 2020 in Sonepat, India. The 11 full and 3 short papers included in this volume were carefully reviewed and selected from 48 submissions. The book also contains 4 invited and 3 tutorial papers. At what point is it okay to put such a painful time on the screen? According to Greengrass, informed with interviews from more than 100 family members and friends of the fallen passengers and crew, the right time is when the families say yes, which they all did. Forty ordinary people had thirty minutes to confront the reality of the way that we're living now, decide on the best course of action, and act. They were the first people to inhabit the post-9/11 world, writes Greengrass. In the treatment he wrote explaining why and how he wanted to make this movie, this important book contains Greengrass's treatment, the 85-page script used by the cast and crew as they filmed many of the sequences, Michael Bronner's amazing article about the U.S. Air Force response, a Q&A with the writer-producer-director, essays about the movie, 20 color photos, and the complete cast and crew credits.
