Committee on Small Business, 2008 **Promoting Entrepreneurship and Job Creation by Decreasing Duplication at the SBA** United States. Congress. House. Committee on Small Business, 2011 **A Social Strategy** Mikolaj Jan Piskorski, 2016-02-23 What people get out of social media and how businesses can get more out of it Almost no one had heard of social media a decade ago but today websites such as Facebook Twitter and LinkedIn have more than 1 billion users and account for almost 25 percent of Internet use Practically overnight social media seems indispensable to our lives from friendship and dating to news and business What makes social media so different from traditional media Answering that question is the key to making social media work for any business argues Miko aj Piskorski one of the world s leading experts on the business of social media In A Social Strategy he provides the most convincing answer yet one backed by original research data and case studies from companies such as Nike and American Express Drawing on his analysis of proprietary data from social media sites Piskorski argues that the secret of successful ones is that they allow people to fulfill social needs that either can t be met offline or can be met only at much greater cost This insight provides the key to how companies can leverage social platforms to create a sustainable competitive advantage Companies need to help people interact with each other before they will promote products to their friends or help companies in other ways Done right a company s social media should benefit customers and the firm Piskorski calls this a social strategy and he describes how companies such as Yelp and Zynga have done it Groundbreaking and important A Social Strategy provides not only a story and data driven explanation for the explosion of social media but also an invaluable concrete road map for any company that wants to tap the marketing potential of this remarkable phenomenon **Brand Premium** N. Hollis, 2017-06-30 Why do consumers pay a premium price for a brand Is it better quality the look and feel or is it the brand s social standing Author Nigel Hollis believes the answer to all those questions is yes Yet the vast majority of brands today trade on past equity and transient buzz And marketers focus on plan execution rather than creating meaningful differentiation rooted in the brand experience This lack of meaning is creating a market full of commodities rather than products that instill loyalty But loyalty i e repeat business is the key to long term success and that requires focusing on meaningful differentiation functional emotional or societal Here brand expert Nigel Hollis focuses on the four components of a meaningfully different brand purpose delivery resonance and difference This unique model will be applied to two very different brand models premium priced and value priced The models will show readers how to amplify what their brand stands for across all the brand touch points including findability affordability credibility vitality and extendibility The book will include cases of global brands such as Dyson Johnnie Walker Geico Volkswagen and more New York ,2006 **The New Yorker** ,2004 **The Meaningful Brand** N.
