## **American Georgics American Georgics:**

American Georgics Edwin C. Hagenstein, Sara M. Gregg, Brian Donahue, 2011-01-01 From Thomas Jefferson's Monticello to Michelle Obama's White House organic garden the image of America as a nation of farmers has persisted from the beginnings of the American experiment In this rich and evocative collection of agrarian writing from the past two centuries writers from Hector St Jean de Crevecoeur to Wendell Berry reveal not only the great reach and durability of the American agrarian ideal but also the ways in which society has contested and confronted its relationship to agriculture over the course of generations Drawing inspiration from Virgil's agrarian epic poem Georgics this collection presents a complex historical portrait of the American character through its relationship to the land From the first European settlers eager to cultivate new soil to the Transcendentalist utopian and religious thinkers of the nineteenth century American society has drawn upon the vision of a pure rural life for inspiration Back to the land movements have surged and retreated in the past centuries yet provided the agrarian roots for the environmental movement of the past forty years Interpretative essays and a sprinkling of illustrations accompany excerpts from each of these periods of American agrarian thought providing a framework for understanding the sweeping changes that have confronted the nation's landscape American Georgics Timothy

Sweet, 2002-01-16 Sweet redresses the critical silence about the discourse of agriculture and does so in a thoughtful critically intelligent and well informed way He is the author of *Traces of War and the Crisis of the Union* **The Georgic Mode in**

**Twentieth-Century American Literature** Ethan Mannon, 2024-02-02 The Georgic Mode in Twentieth Century American Literature The Satisfactions of Soil and Sweat explores environmental writing that foregrounds labor Ethan Mannon argues that Virgil's Georgics as well as the georgic mode in general exerted considerable influence upon some of America's best known writers including Robert Frost Willa Cather and Wendell Berry and that these and others worked to revise the mode to better fit their own contexts This book also outlines the contemporary value of the georgic literary tradition two thousand years of writing that begins with the premise that humans must use the world in order to survive and search for a balance between human needs and nature's productive capacity In the georgic mode authors found an adaptable discourse that enabled them to advocate for the protection and responsible use of productive lands present rural places and people in all of their complexity explore human relationships with laboring animals and advertise the sensory pleasures of rooted work

Georgic Literature and the Environment Sue Edney, Tess Somervell, 2022-11-18 This expansive edited collection explores in depth the georgic genre and its connections to the natural world Together its chapters demonstrate that georgic a genre based primarily on two classical poems about farming Virgil's Georgics and Hesiod's Works and Days has been reworked by writers throughout modern and early modern English language literary history as a way of thinking about humans relationships with the environment The book is divided into three sections Defining Georgic Managing Nature and Eco Georgic for the Anthropocene It centres the georgic genre in the ecocritical conversation giving it equal prominence with

pastoral elegy and lyric as an example of nature writing that can speak to urgent environmental questions throughout literary history and up to the present day It provides an overview of the myriad ways georgic has been reworked in order to address human relationships with the environment through focused case studies on individual texts and authors including James Grainger William Wordsworth Henry David Thoreau George Eliot Thomas Hardy Seamus Heaney Judith Wright and Rachel Blau DuPlessis This is a much needed volume for literary critics academics and students engaged in ecocritical studies environmental humanities and literature addressing a significantly overlooked environmental literary genre *New Essays on Phillis Wheatley* John C. Shields, Eric D. Lamore, 2011-05-30 The first African American to publish a book on any subject poet Phillis Wheatley 1753 1784 has long been denigrated by literary critics who refused to believe that a black woman could produce such dense intellectual work In recent decades however Wheatley's work has come under new scrutiny as the literature of the eighteenth century and the impact of African American literature have been reconceived Fourteen prominent Wheatley scholars consider her work from a variety of angles affirming her rise into the first rank of American writers from publisher description **Transactions and Proceedings of the American Philological Association** American Philological Association, 1923 Bibliographical record of works published by members of the Association in v 28 1897

**Early American Literature**, 2007 **American Journal of Philology**, 1897 **Annotation in Eighteenth-Century Poetry** Michael Edson, 2017-10-18 Recent years have witnessed a growing fascination with the printed annotations accompanying eighteenth century texts Previous studies of annotation have revealed the margins as dynamic textual spaces both shaping and shaped by diverse aesthetic historical and political sensibilities Yet previous studies have also been restricted to notes by or for canonical figures they have neglected annotation's relation to developments in reading audiences and the book trade and they have overlooked the interaction even tension between prose notes and poetry a tension reflecting eighteenth century views of poetry as aesthetically superior to prose Annotation in Eighteenth Century Poetry addresses these oversights through a substantial introduction and eleven essays analyzing the printed endnotes and footnotes accompanying poems written or annotated between 1700 and 1830 Drawing on methods and critical developments in book history and print culture studies this collection explores the functions that annotation performed on and through the printed page By analyzing the annotation specific to poetry these essays clarify the functions of notes among the other paratexts including illustrations by which scholars have mapped poetry's relation to the expanding book trade and the class specific production of different formats Because the reading and writing of poetry boasted social and pedagogical functions that predate the rise of the note as a print technology studying the relation of notes to poetry also reveals how the evolving layout of the eighteenth century book wrought significant changes not only on reading practices and reception but on the techniques that booksellers used to make new poems steady sellers and antiquarian discoveries legible to new readers Above all analyzing notes in poetry volumes contributes to larger inquiries into canon formation and the rise of literary studies as a
