**Empowering Early Childhood Educators With Technology** Burris, Jade,Rosen, Dina,Karno, Donna,2021-06-18 Computers and mobile technologies have become widely adopted as sought after tools in the field of education The prevalence of technology in early childhood education ECE is increasing and teachers both pre service and in service are using best practices to integrate tools effectively to improve teaching and learning within the field This includes settings such as childcare centers family childcare and community programs that have both educators and administrators adapting to the

use of technology Therefore it has become critical to research and explore the best practices of technology integration and successful strategies to improve the use of technology in ECE The Handbook of Research on Empowering Early Childhood Educators With Technology examines best practices that focus specifically on those that facilitate the development of competencies in teaching young children birth to age 8 and technology integration The chapters include information on the foundations of technology in early childhood education content specific technology applications developmentally appropriate practices DAP for learners using technology and how to meet diverse learner needs with technology The target audience for this book is early childhood professionals teacher educators pre and in service teachers in early childhood settings faculty and researchers in the field of education instructional technologists childcare and elementary school administrators early education policy organizations and advocacy groups that are interested in the best practices and successful strategies for implementing technology in ECE Data Book of Social Studies Materials and Resources ,1980 **Equity in STEM**

**Education Research** Alberto J. Rodriguez, Regina L. Surriel, 2022-09-06 This book focuses on the creative and transformative work of scholars who are advancing social justice through science STEM education with limited resources It draws attention to the significant body of work being conducted in various contexts so that readers could reflect and appreciate how much broader and transformative our impact could be if funding agencies policy makers and other researchers would widen their perspective and seek to promote social justice driven scholarship Public funding for STEM research on K 12 and teacher education that targets special populations is often limited and tends to favor mainstream research This book contains case studies on innovative and promising STEM research with a focus on equity diversity and social justice that are funded with limited or no public funding It also presents anecdotes from authors in relation to their struggles in either securing funding for their reported study or seeking to publish its findings This provides more context to the challenges of conducting non mainstream research in science STEM education Most of the contributors are scholars of color and or women conducting research with traditionally marginalized populations in science STEM Thus this book offers an additional venue to share the voices of marginalized scholars and allies seeking to broaden our understanding of the challenges and successes of promoting equity diversity and social justice in various educational contexts **The National union catalog, 1968-1972**
