## **American Holocaust The Conquest Of The New World:**

**American Holocaust** David E. Stannard, 1992 This controversial treatise focuses on the social and cultural issues involved in the invasion of the Americas by European nations It describes the suppression or extermination of native cultures and focuses on the cultural and ideological principles behind the colonization efforts **American Holocaust** David E. Stannard, 1992 A history of the destruction of the indigenous civilizations of the Americas describes the acts of genocide that began with Columbus arrival and continued into the nineteenth century **American Holocaust** David E. Stannard, 1993 For four hundred years from the first Spanish assaults against the Arawak people of Hispaniola in the 1490s to the U S Army s massacre of Sioux Indians at Wounded Knee in the 1890s the indigenous inhabitants of North and South America endured an unending firestorm of violence During that time the native population of the Western Hemisphere declined by as many as one hundred million people Indeed as historian David E Stannard argues in this stunning new book the European and white American destruction of the native peoples of the Americas was the most massive act of genocide in the history of the world Stannard begins with a portrait of the enormous richness and diversity of life in the Americas prior to Columbus s fateful voyage in 1492 He then follows the path of genocide from the Indies to Mexico and Central and South America then north to Florida Virginia and New England and finally out across the Great Plains and Southwest to California and the North Pacific Coast Stannard reveals that wherever Europeans or white Americans went the native people were caught between imported plagues and barbarous atrocities typically resulting in the annihilation of 95 percent of their populations What kind of people he asks do such horrendous things to others His highly provocative answer Christians Digging deeply into ancient European and Christian attitudes toward sex race and war he finds the cultural ground well prepared by the end of the Middle Ages for the centuries long genocide campaign that Europeans and their descendants launched and in places continue to wage against the New World s original inhabitants Advancing a thesis that is sure to create much controversy Stannard contends that the perpetrators of the American Holocaust drew on the same ideological wellspring as did the later architects of the Nazi Holocaust It is an ideology that remains dangerously alive today he adds and one that in recent years has surfaced in American justifications for large scale military intervention in Southeast Asia and the Middle East At once sweeping in scope and meticulously detailed **American Holocaust** is a work of impassioned scholarship that is certain to ignite intense historical and moral debate **Genocide** Adam Jones, 2006 Recent events in the former Yugoslavia Rwanda East Timor and Iraq have demonstrated with appalling clarity that the threat of genocide is still a major issue within world politics **The Specter of Genocide** Robert Gellately, Ben Kiernan, 2003-07-07 Genocide mass murder and human rights abuses are arguably the most perplexing and deeply troubling aspects of recent world history This collection of essays by leading international experts offers an up to date comprehensive history and analyses of multiple cases of genocide and genocidal acts with a focus on the twentieth century The book contains studies of the Armenian genocide the victims of Stalinist terror the Holocaust and

Imperial Japan Several authors explore colonialism and address the fate of the indigenous peoples in Africa North America and Australia As well there is extensive coverage of the post 1945 period including the atrocities in the former Yugoslavia Bali Cambodia Ethiopia Rwanda East Timor and Guatemala The book emphasizes the importance of comparative analysis and theoretical discussion and it raises new questions about the difficult challenges for modernity constituted by genocide and other mass crimes

**Defining Americans** Mary E. Stuckey, 2004 Ranging broadly from Andrew Jackson to Bill Clinton and George W Bush Stuckey demonstrates how presidents accomplish the dual enactment of inclusion and exclusion through their rhetorical and political choices Our early leaders were preoccupied with balancing the growing nation later presidents were concerned with the nature and definitions of citizenship By examining the political speeches of presidents exemplifying distinctly different circumstances she presents a series of snapshots which when taken together reveal both the continuity and the changes in our national self understanding

**A Call to Action** Curry Malott, 2007 A Call to Action challenges current and future teachers to take seriously the philosophical implications of being an educator on land indigenous to a particular human group with both Native and non Native students Readers are introduced to the interrelated histories of education philosophy and Native and non Native peoples in North America These discussions point to the advancement of a critical pedagogy for Native North America This book should be read by any teacher or student who is or will be involved with cultural studies especially in the area of Native Americans

**Savagery and Docility** Nerissa S. Balce-Cortes, 2002 After 1898 Puerto Rico and the Philippine Islands became colonial territories of the United States and this moment signaled a new but also familiar chapter in the history of the American nation The dissertation argues that after 1898 a new American Other was introduced

in the American popular imagination the Filipino native as colonial Other At the turn of the twentieth century the annexation of the Philippine Islands was the generative moment in the construction of racial and gendered discourses about the Filipino These discourses represented the Filipino as a savage and as a small black boy thereby recalling the racial idioms of earlier stereotypes of American Indians and African Americans from the nineteenth century This moment of Empire was both the continuation and the rupture of earlier racialized and gendered grammars that constructed images of the American nation s domestic Others i e nineteenth century discourses on red savagery and black inferiority The study focuses on the material culture of the U S Empire by examining two theoretical issues First that the U S Empire was practiced by and through violence and racialization that resulted in the construction of the Filipino native s black body a body that was imagined as both savage and docile The second theoretical idea explores the tropes of Filipino savagery and docility as key constructs of American imperial discourse and as literary devices appropriated by American and Filipino American writers My study of the American Empire focuses on images of the Filipino in American imperial texts from the moment of Empire mainstream and Negro newspapers editorial cartoons photographs and travel writing by white women who lived in the Philippines The language of Empire includes literature by Filipino American writers who contest and appropriate the image of the Filipino savage in their novels The Introduction begins with a genealogy of the idea of an American Empire and a discussion of postcolonial theory and the language of Empire Chapter One is a discussion of archival photographs as indexes and icons of Empire The second chapter focuses on lynching and Empire as tropes of American writing The chapter analyzes mainstream and Negro newspapers from the period of the Philippine American War Chapter Three discusses travel writing by Anglo or white women who lived in the Philippines during the first decade of U S rule These are Helen Wilson s *A Massachusetts Woman in the Philippines* 1903 Emily Bronson Conger s *An Ohio Woman in the Philippines* 1904 and Mrs Campbell Dauncey s *An Englishwoman in the Philippines* 1906 In Chapter Four we examine tropes of history in Filipino American fiction The novels analyzed are Ninotchka Rosca s *State of War* 1989 Jessica Hagedorn s *Dogeaters* 1990 and Carlos Bulosan s *The Cry and the Dedication* 1995 The dissertation ends with an Afterword that discusses new meanings of Empire in the twenty first century and how Filipino Americans engage with the legacies of the U S Empire

since European settlers stumbled upon the eighteenth century mounds explanations and interpretations of them often ridiculous and seldom Native American have appeared as sober scholarship Today the Native American Graves Protection and Repatriation Act of 1990 NAGPRA has intensified the debate over who owns the mounds modern descendants of the Mound builders or Western archaeologists Native Americans Archaeologists and the Mounds is the first cogent look at all the issues surrounding the mounds their history their preservation and their interpretation Using the traditions of those Natives descended from the Mound Builders as well as historical and archaeological evidence Barbara Alice Mann placed the mounds in their native cultural context as she examines the fraught issues enveloping them in the twenty first century

**Genocide in the Middle East** Hannibal Travis, 2010 Genocide in the Middle East describes the genocide of the Armenians Greeks and Assyrians of the Ottoman Empire in the nineteenth and early twentieth centuries of the Kurds and other persons living under Saddam Hussein in northern Iraq in the late 1980s and of the Dinka Nuba Fur Masalit and Zaghawa peoples of Sudan from the 1970s to the present It situates these crimes in their historical context as outgrowths of intolerant religious traditions imperialism and the rise of the nation state Cold War insurgencies and counterinsurgencies and the global competition for resources and markets at the expense of indigenous peoples This requires a more thorough investigation of the case law on genocide than has been attempted in the literature on genocide to date including detailed accounts of the prosecutions of the leaders of the Ottoman Empire after World War I of Saddam Hussein and other Iraqi officials after Operation Iraqi Freedom and of President Omar Hassan al Bashir and other leaders of Sudan by the International Criminal Court Finally the book explores emerging problems of genocidal terrorism cultural genocide and structural genocide due to starvation disease and displacement The field of genocide studies has grown rapidly in recent years fueled by interest in the Armenian genocide the wars in the former Yugoslavia and Iraq and the widespread massacres in southern Sudan and Darfur While several comparative studies of the Armenian genocide the Holocaust and other genocides have been published none of them focuses on genocide in the Middle East and North Africa since the nineteenth century This book provides a comprehensive history of genocide in the broader Islamic world with a particular focus on the twentieth century It is of interest to general readers undergraduates graduate students academics journalists and legal professionals and will be useful as a text for courses on International Law International Criminal Law Law and Religion Middle East Studies International Relations Public Policy Criminal Justice or World History The comprehensive research is breath takingly evident This historical account of the lesser know genocidal conflicts is incredibly revealing Perhaps the best thing one could say about this book is that the familiar adage Those who ignore history are bound to repeat it reverberates throughout this intensely engaging volume ASIL UN21 Newsletter This ambitious book in its research and coverage tells a sorry tale of mankind s inhumanity and intolerance over millennia of genocidal deeds and rhetoric A fast moving narrative reaches from biblical times to Darfur describing tragic events accompanied by selective quotations from their participants and observers Genocide may be a recently invented term

but its occurrences based on a variety of causes and reasons seem to have been a deep part of the human experience of group interactions Henry Steiner Professor of Law Emeritus Harvard Law School and co author International Human Rights in Context Law Politics Morals Oxford and New York Oxford University Press 3d ed 2007 In Genocide in the Middle East Hannibal Travis breaks new ground in genocide studies by unveiling the full panoply of genocidal processes in the Middle East and West Asia as no previous scholar has But he does much more in terms of its twentieth and twenty first century coverage this is simply the most expansive detailed and up to date history of genocide we possess Adam Jones Associate Professor Political Science University of British Columbia Okanagan and author of Genocide A Comprehensive Introduction London Routledge 2006 Professor Travis study of genocide and the contribution he makes for a better understanding of the Assyrian one is an invaluable event This is not a book of sociology but of historical review and analysis As such it deserves the highest of accolades Journal of Assyrian Academic Studies      *The Middle East, Abstracts and Index* ,2007
