Airbender took shape from the very first sketch through the series finale and beyond Publisher's description *Race and the Animated Bodyscape* Francis M. Agnoli, 2023-04-21 Race does not exist in animation it must instead be constructed and ascribed Yet over the past few years there has been growing discourse on the intersection of these two subjects within both academic and popular circles In *Race and the Animated Bodyscape* Constructing and Ascribing a Racialized Asian Identity in *Avatar* and *Korra* author Francis M. Agnoli introduces and illustrates the concept of the animated bodyscape looking

specifically at the US television series *Avatar The Last Airbender* and its sequel *The Legend of Korra* Rather than consider animated figures as unified wholes Agnoli views them as complexes of signs made up of visual aural and narrative components that complement contradict and otherwise interact with each other in the creation of meaning Every one of these components matters as they are each the result of a series of creative decisions made by various personnel across different production processes This volume re constructs production narratives for *Avatar* and *Korra* using original and preexisting interviews with cast and crew members as well as behind the scenes material Each chapter addresses how different types of components were generated tracing their development from preliminary research to final animation In doing so this project identifies the interlocking sets of production communities behind the making of animation and thus behind the making of racialized identities Due to its illusory and constructed nature animation affords untapped opportunities to approach the topic of race in media looking beyond the role of the actor and taking into account the various

factors and processes behind the production of racialized performances The analysis of race and animation calls for a holistic approach one that treats both the visual and the aural as intimately connected This volume offers a blueprint for how to approach the analysis of race and animation [Mediaweek](#) ,2008 **Avatar: The Last Airbender - Smoke and Shadow**
