Book Title Generator Scott Lorenz, 2020-05-15 The Proven System For Finding a Title That Sells Your Book Nobody buys a book unless they're first attracted by the title and cover. If the title doesn't grab them, it's game over. That's why Book Publicist Scott Lorenz of Westwind Book Marketing created a strategy for naming your book that'll get attention of potential buyers. Don't name your book until you've read Book Title Generator. Using the latest methods of getting a book ranked on search engines and in Amazon, Lorenz lays out a plan to help you get the right title for your book. Lorenz asks authors to consider all options in the quest for the perfect book title. From using numbers, alliteration, idioms, and keyword research, Book Title Generator covers them all. Many famous books we all know today started out with dreadful titles. Learn why, when a title was changed, their book sales took off. As a Book Publicist, Scott Lorenz has helped title hundreds of books and promoted hundreds more. He's a student of book titles and shares his nearly three decades of book marketing experience with authors. In this book, Book Title Generator is designed to help authors and publishers spark the idea to lead them to the perfect book title. It's the surefire way to find your winning title. *Computational Intelligence in Music, Sound, Art and Design* João Correia, Vic Ciesielski, Antonios Liapis, 2017-04-03 This book constitutes the refereed proceedings of the 6th International Conference on Evolutionary Computation in Combinatorial Optimization, EvoMUSART 2017, held in Amsterdam, The Netherlands, in April 2017, co-located with the Evo 2017 events EuroGP, EvoCOP, and EvoApplications.
