problem of Internet information services having to meet the increasing information demands of users in the dynamic Internet
environment The purpose of this research was to use K 12 digital reference services as a starting point to better understand
the process of building and maintaining Internet information services The study has three specific objectives 1 to build and

Griffith Williamson,1938 The guidance movement has reached the stage where individual diagnosis is now recognized as an
essential first step in the development of an adequate guidance service for youth The mere recognition of this fact however
does not guarantee the translation of the idea into practice Workers everywhere seem to be groping for the necessary
technical knowledge They are seeking dependable ways and means of diagnosing abilities aptitudes interests and personality
characteristics which may be put at the disposal of those who desire to develop their educational and vocational plans on a
rational basis of fact rather than on the irrational basis of ambition hope and wishful thinking The contents of this handbook
it is hoped will partially meet this need In June 1935 the authors prepared a mimeographed edition to meet the local needs of
faculty counselors at the University of Minnesota In spite of the fact that this edition was written specifically for faculty
counselors in a typical Midwestern university the number of calls for it from guidance workers in other colleges and
universities and even in other types of schools quickly exhausted the limited number available In response to this demand the
authors have completely revised the mimeographed edition and have broadened its scope to cover guidance techniques in
junior and senior high schools as well as at the college level The American Produce Review ,1909 *Pratiyogita Darpan*
