**Constructivist Education in an Age of Accountability** David W. Kritt, 2018-01-16 This book contrasts authentic approaches to education with classroom practices based primarily on standards external to the individuals who are supposed to learn. While other books tend to promote either a desperate scramble for meeting standards or determined resistance to neoliberal reforms, this book fills that gap in ways that will inspire practitioners, prospective teachers, and teacher educators. Mandates pay only lip service to constructivist and social constructivist principles while thwarting the value of both students and teachers actively creating understandings. Authors in this book assert the central importance of a range of constructivist approaches to teaching, learning, and thinking, inviting careful reflection on the goals and values of education. *Resources in Education*, 1998

**On Developing Readers** Marge Scherer, 2016-04-15 This collection of articles on the teaching of reading pulls together some of the best and most clicked-on articles on reading that Educational Leadership has published in the past few years from more than a dozen of the most respected experts in the field, including Richard L. Allington, Nell K. Duke, and Sally E. Shaywitz. The articles cover what research says about the teaching of both reading and reading comprehension, from teaching phonics to improving fluency to tackling complex texts. *On Developing Readers* offers strategies for teaching informational texts as well as fiction. Most important, it also addresses how to inspire the love of reading.

**Education Is Upside-Down** Eric Kalenke, 2014-10-08 *Education Is Upside Down* cuts through adjustments being made at technical levels of educational practice and accountability, challenging ideals and philosophies that have powered American Education for most of the last century. This book explains how and why long-standing approaches generate flawed instructional practices, flawed systemic reform efforts, and a fundamental misalignment between the educational institution and the society it is missioned to serve. *Education Is Upside Down* urges readers wishing to improve American Education to more carefully consider the institution's central mission, challenge long-accepted truths of practice, and question current reform efforts and actions. In full, *Education Is Upside Down* resists the practitioner vs. reformer blame game, seeking ultimately to carefully untangle, not tighten, by yanking on any single strand, the long, complicated knot of American Education.

**Race, Curriculum, and the Politics of Educational Justice** Wayne Au, This one-of-a-kind collection will help today's educators feel and understand the power that communities can harness through organizing and solidarity. This volume highlights some of Wayne Au's most impactful essays and articles across his 25 years as an educator, activist, and scholar. In this carefully curated collection, Au traces the development of his politics and analyses of schooling, education policy, curriculum, and racialization. Featuring concrete examples, chapters address antiracist education and the politics of knowledge, the racial politics of high-stakes testing, and neoliberal education reforms and the racialization of Asian Americans as a model minority and its connection to anti-Blackness. Importantly, this book illustrates the power of writing for different audiences by placing scholarly essays alongside those written for teachers, parents, and community members, while also

linking educational activism with educational research In addition to providing a broad examination of the politics of curriculum and educational policy in America Book Features Written by an internationally known scholar in the areas of curriculum multicultural and antiracist education high stakes testing and neoliberal reforms racial justice and critical education Provides a model for how to translate educational research and analysis between academic and public discourses embodying the intersections of theory practice and justice Combines searing political analysis of education with the hope offered through activism solidarity and educational justice **Carr V.
