

# Nature vs. Nurture

Nature vs Nurture is a debate between scientists about what makes people who they are. Some people are born with certain traits or abilities, while others are shaped by their environment. Nature is the genetic side of things, but it's difficult to tell what's what. Some people are born with certain traits, while others are shaped by their environment. Some people are born with certain traits, while others are shaped by their environment. Some people are born with certain traits, while others are shaped by their environment.

Scientists generally agree that both nature and nurture play a role in who we are. Some people are born with certain traits, while others are shaped by their environment. Some people are born with certain traits, while others are shaped by their environment. Some people are born with certain traits, while others are shaped by their environment. Some people are born with certain traits, while others are shaped by their environment. Some people are born with certain traits, while others are shaped by their environment. Some people are born with certain traits, while others are shaped by their environment.

It's hard to tell which is more important, nature or nurture. Some people are born with certain traits, while others are shaped by their environment. Some people are born with certain traits, while others are shaped by their environment. Some people are born with certain traits, while others are shaped by their environment. Some people are born with certain traits, while others are shaped by their environment. Some people are born with certain traits, while others are shaped by their environment. Some people are born with certain traits, while others are shaped by their environment.

Scientists are still trying to figure out the answer. Some people are born with certain traits, while others are shaped by their environment. Some people are born with certain traits, while others are shaped by their environment. Some people are born with certain traits, while others are shaped by their environment. Some people are born with certain traits, while others are shaped by their environment. Some people are born with certain traits, while others are shaped by their environment. Some people are born with certain traits, while others are shaped by their environment.

## Conclusion

Both nature and nurture play a role in who we are. Some people are born with certain traits, while others are shaped by their environment. Some people are born with certain traits, while others are shaped by their environment. Some people are born with certain traits, while others are shaped by their environment.

to whether an utterance was in some way incorrect The two terms will be defined and looked into in more detail in the second chapter In the following the correlation between the nature vs nurture debate and language acquisition will be explained first The respective chapter provides a brief insight into how the nativist approach developed mainly based on Chomsky's 1988 notion of Universal Grammar UG and the type of criticism it brought along It further explains the connection between the respective theories and the grammatical aspect of language acquisition In the last section the main problems of experience based language learning will be displayed and defined The third chapter starts with a section dedicated to where the particular view that humans need innate structures for a correct knowledge of language stems from It continues with a detailed look on the no negative evidence problem The non existence of negative evidence and which role it plays in terms of language acquisition will be explored from different standpoints by nativists as well as non nativists
