Beyond Individualism Reconstituting The Liberal Self:

Beyond Individualism Jack Crittenden, 1992 Liberalism Beyond Justice John Tomasi, 2021-04-13 Liberal regimes shape the ethical outlooks of their citizens relentlessly influencing their most personal commitments over time On such issues as abortion homosexuality and women s rights many religious Americans feel pulled between their personal beliefs and their need as good citizens to support individual rights These circumstances argues John Tomasi raise new and pressing questions Is liberalism as successful as it hopes in avoiding the imposition of a single ethical doctrine on all of society If liberals cannot prevent the spillover of public values into nonpublic domains how accommodating of diversity can a liberal regime actually be To what degree can a liberal society be a home even to the people whose viewpoints it was formally designed to include To meet these questions Tomasi argues the boundaries of political liberal theorizing must be redrawn Political liberalism involves more than an account of justified state coercion and the norms of democratic deliberation Political liberalism also implies a distinctive account of nonpublic social life one in which successful human lives must be built across the interface of personal and public values Tomasi proposes a theory of liberal nonpublic life To live up to their own deepest commitments to toleration and mutual respect liberals he insists must now rethink their conceptions of social justice civic education and citizenship itself The result is a fresh look at liberal theory and what it means for a liberal society to function well

Covenants Without Swords Jeanne Morefield, 2016-06-28 Covenants without Swords examines an enduring tension within liberal theory that between many liberals professed commitment to universal equality on the one hand and their historic support for the politics of hierarchy and empire on the other It does so by examining the work of two extremely influential British liberals and internationalists Gilbert Murray and Alfred Zimmern Jeanne Morefield mounts a forceful challenge to disciplinary boundaries by arguing that this tension on both the domestic and international levels is best understood as frequently arising from the same l

New Frontiers in the Philosophy of Intellectual Property Annabelle Lever, 2012-07-05 Examines the justification of patents copyrights and trademarks in light of the political controversy over the TRIPS agreement

Real Toads in Imaginary Gardens Maureen Whitebrook, 1995 Maureen Whitebrook argues that literature through both its form and its content can expose and criticize liberal theory and point

beyond it to a new political theory She describes how literary political criticism might be done and demonstrates such criticism in four essays that expose the connections between specific political and literary texts Fiction Whitebrook concludes does a better job than liberal political theory of examining the relationship between the individual and the State Ideas, Ideologies, and Social Movements Peter A.
