Beyond Limitations Keys For United Nations:

Key Resolutions of the United Nations General Assembly 1946-1996 Dietrich Rauschnig, Katja Wiesbrock, Martin Lailach, 1997-08-28 Key resolutions from the first fifty years of the United Nations General Assembly *Global Migration beyond Limits* Franklin Obeng-Odoom, 2021-12-09 Global Migration beyond Limits takes a critical approach to mainstream economic accounts of migration environment and inequality Drawing on a range of case studies from Africa the Middle East Asia Australia Europe and the Americas Obeng Odoom argues that much of the crisis of migration can be understood as a reflection of cumulative stratification at different scales in the global system though the form of migration is conditioned by more than economic forces Examining the experiences of migrant farmers street workers refugees international students and many more this book shows that the so called migration crisis is an expression of a political economic system in which socially created value is privately appropriated as rents by a privileged few who use institutions such as land and property rights race ethnicity class and gender to keep others in their place **The Oceans: Key Issues in Marine Affairs** Hance D. Smith, 2012-11-03 The oceans provide a great challenge for the development and management of planet earth by humankind This book covers new approaches to the development of the law of the sea the division of the oceans among states and new thinking on institutions in depth **Key Issues for Transport Beyond 2000** European Conference of Ministers of Transport, 2002-05-27 A clear dichotomy exists between an European economy centred on international trade and the environmental damage to which this focus gives rise There is a need for a novel approach based on a shift away from the goal of ever faster travel and ever greater time savings and the adoption of a different concept of accessibility Will the 2000s see the emergence of a new way of thinking These and other topical issues were the subject of the ECMT's 15th International Symposium Are we likely to see a decoupling of economic growth from transport growth In designing future transport systems will the pendulum swing away from the criterion of efficiency towards greater concern for equity and the environment This book reproduces the 17 introductory reports presented at the Symposium together with a summary of the discussions on the three main topics scenarios and forecasts transforming structures and trends in technology peripherality and pan European integration It highlights the key ideas to emerge from the final Round Table on Efficiency Equity and the Environment in Transport Experience and Prospects reviews the issues facing the transport sector in the coming years and sets out policy recommendations for meeting the challenges of the 2000s **Beyond Ecological Economics and Development** Luis Valenzuela, María del Valle Barrera, 2023-08-25 The interrelationship among development environment and human needs is one of the key issues being faced by the world today The Chilean economist Manfred Max Neef was a leading thinker on this dynamic and this book provides both an introduction to and analysis of his work and ideas Arranged in three main sections Human needs and wellbeing Development growth and sustainability and Methodology of economics the chapters in this book contribute to on going debates on issues as important as human development the limits of economic

growth deep ecology sustainable consumption entrepreneurship climate change interdisciplinarity and the methodology and practice of economics The contributors to this volume provide a broad range of different critical perspectives on these issues and the chapters are arranged in dialogue with each other to provide the reader with a rounded view of the legacy of Max Neef This book is vital reading for all those interested in ecological economics environmental economics development economics methodology and philosophy of economics and heterodox economics Report on Problems of a United Nations Force International Law Association.
