*Beyond the University* Michael S. Roth, 2014-05-06 In this provocative contribution to the disputes surrounding a liberal education university president Michael S Roth focuses on important moments and seminal thinkers in America's long running argument over vocational vs liberal education *Redesigning Liberal Education* William Moner, Phillip Motley, Rebecca Pope-Ruark, 2020-07-07 Redesigning liberal education requires both pragmatic approaches to discover what works and radical visions of what is possible The future of liberal education in the United States in its current form is fraught but full of possibility Today's institutions are struggling to maintain viability sustain revenue and assert value in the face of rising costs But we should not abandon the model of pragmatic liberal learning that has made America's colleges and universities the envy of the world Instead Redesigning Liberal Education argues we owe it to students to reform liberal education in ways that put broad and measurable student learning as the highest priority Written by experts in higher education the book is organized into two sections The first section focuses on innovations at 13 institutions Brown University College of the Holy Cross Connecticut College Elon University Florida International University George Mason University Georgetown University Lasell College Northeastern University Rollins College Smith College Susquehanna University and the University of Wisconsin Green Bay Chapters about these institutions consider the vast spectrum of opportunities and challenges currently faced by students faculty staff and administrators while also offering radical visions of the future of liberal education in the United States Accompanying vision chapters written by some of the foremost leaders in higher education touch on a wide array of subjects and themes from artificial intelligence and machines to the role that human dispositions mindsets resilience and time play in how we guide students to ideas for bringing playful concepts of creativity and openness into our work Ultimately Redesigning Liberal Education reveals how humanizing forces including critical thinking collaboration cross cultural competencies resilience and empathy can help drive our world This uplifting collection is a celebration of the innovative work being done to achieve the promise of a valuable engaging and practical undergraduate liberal education Isis Artze Vega Denise S Bartell Randy Bass John Bodinger de Uriarte Laurie Ann Britt Smith Jacquelyn Dively Brown Phillip M Carter Nancy L Chick Michael J Daley Maggie Debelius Janelle Papay Decato Peter Felten Ashley Finley Dennis A Frey Jr Chris W Gallagher Evan A Gatti Lisa Gring Pemble Krist na Moss Gudrún Gunnarsdóttir Anthony Hatcher Toni Strollo Holbrook Derek Lackaff Leo Lambert Kristin Lange Sherry Lee Linkon Anne M Magro Maud S Mandel Jessica Metzler Borjana Mikic William Moner Phillip Motley Matthew Pavesich Uta G Poiger Rebecca Pope Ruark Michael Reder Michael S Roth Emily Russell Heather Russell Ann Schenk Michael Shanks Susan Rundell Singer Andrea A Sinn Christina Smith Allison K Staudinger William M Sullivan Connie Svabo Meredith Twombly Betsy Verhoeven David J Voelker Scott Windham Mary C Wright Catherine Zeek *Why the Humanities Matter Today* Lee Trepanier, 2017-03-08 The humanities in American higher education is in a state of crisis with declining student enrollment fewer faculty positions and diminishing public

prestige Instead of recycling old arguments that have lost their appeal the humanities must discover and articulate new rationales for their value to students faculty administrators and the public Why the Humanities Matter Today In Defense of Liberal Education is an attempt to do so by having philosophers literature and foreign language professors historians and political theorists defend the value and explain the worth of their respective disciplines as well as illuminate the importance of liberal education By setting forth new arguments about the significance of their disciplines these scholars show how the humanities can reclaim its place of prominence in American higher education *Student Agency and Self-Formation in Higher Education* Yusuf Ikbal Oldac,Lili Yang,Soyoung Lee,2023-11-28 This edited volume argues for positioning students at the centre of higher education drawing from the concepts of student agency and self formation The volume highlights that higher education has broader and more important purposes than what a neoliberal human capital approach would suggest and explores how students exercise their agency and realise self formation as inherently connected concepts throughout university education With disciplinary cultural and contextual diversity this volume will provide international perspectives to readers interested in higher education theories policies and practices **Beyond the Skills Gap** Matthew T.

Hora,2019-01-02 2018 Frederic W Ness Book Award AAC U How can educators ensure that young people who attain a postsecondary credential are adequately prepared for the future Matthew T Hora and his colleagues explain that the answer is not simply that students need more specialized technical training to meet narrowly defined employment opportunities Beyond the Skills Gap challenges this conception of the skills gap highlighting instead the value of broader twenty first century skills in postsecondary education They advocate for a system in which employers share responsibility along with the education sector to serve the collective needs of the economy society and students Drawing on interviews with educators in two and four year institutions and employers in the manufacturing and biotechnology sectors the authors demonstrate the critical importance of habits of mind such as problem solving teamwork and communication They go on to show how faculty and program administrators can create active learning experiences that develop students skills across a range of domains The book includes in depth descriptions of eight educators whose classrooms exemplify the effort to blend technical learning with the cultivation of twenty first century habits of mind The study set in Wisconsin takes place against the backdrop of heated political debates over the role of public higher education This thoughtful and nuanced account enriched by keen observations of postsecondary instructional practice promises to contribute new insights to the rich literature on workforce development and to provide valuable guidance for postsecondary faculty and administrators **Realizing the Distinctive University** Mark William Roche,2017-02-28 In Realizing the Distinctive University Vision and Values Strategy and Culture Mark William Roche changes the terms of the debate about American higher education A former dean of the College of Arts and Letters at the University of Notre Dame Roche argues for the importance of an institutional vision not simply a brand and while he extols the value of entrepreneurship he defines it in contrast to the corporate drive toward commercialization and

demands for business management models Using the history of the German university to assess the need for and implementation of distinctive visions at American colleges and universities Roche s own vision benefits from his deep connection to both systems as well as his experience in the trenches working to realize the special mission of an American Catholic university Roche makes a significant contribution by delineating means for moving such an institution from vision to implementation Roche provides a road map to creating a superb arts and sciences college within a major research university and offers a rich analysis of five principles that have shaped the modern American university flexibility competition incentives accountability and community He notes the challenges and problems that surface with these categories and includes ample illustration of both best practices and personal missteps The book makes clear that even a compelling intellectual vision must always be linked to its embodiment in rhetoric support structures and community Throughout this unique and appealing contribution to the literature on higher education Roche avoids polemic and remains optimistic about the ways in which a faculty member serving in administration can make a positive difference Realizing the Distinctive University is a must read for academic administrators faculty members interested in the inner workings of the university and graduate students and scholars of higher education Proceedings of the United States Naval Institute United States Naval Institute,2016

**Safe Enough Spaces** Michael S. Roth,2019-08-20 From the president of Wesleyan University a compassionate and provocative manifesto on the crises confronting higher education In this bracing book Michael S Roth stakes out a pragmatist path through the thicket of issues facing colleges today to carry out the mission of higher education With great empathy candor subtlety and insight Roth offers a sane approach to the noisy debates surrounding affirmative action political correctness and free speech urging us to envision college as a space in which students are empowered to engage with criticism and with a variety of ideas Countering the increasing cynical dismissal from both liberals and conservatives of the traditional core values of higher education this book champions the merits of different diversities including intellectual diversity with a timely call for universities to embrace boldness rigor and practical idealism **Talking Book Topics**

Beyond the Nation Thomas Adam,Uwe Luebken,2008    **Canada Lancet** ,1905    Beyond the Corporate University  
Henry A. Giroux,Kostas Myrsiades,2001-06-20 Prominent scholars in this book move boldly beyond critique to show how and why the critical functions of a democratically informed civic education not merely professional training must become the core of the university s mission They show why higher education must address what it means to relate knowledge to public life and social responsibility to the demands of critical citizenship Moreover they show why democratic forms of education and various elements of a critical pedagogy are vital not only to individual students but also to our economy and our democratic institutions and future leadership Visit our website for sample chapters    *Beyond Political Correctness* Stephen Richer,Lorna Weir,1995 The term political correctness has lately been transformed into a weapon of neoconservatism Once used to poke fun at social movements and civil rights groups for occasional lapses into rigidity it has since become a popular handle for the neoconservative critique of higher education Aimed at anti racist and anti sexist initiatives within universities colleges and other major social institutions the term is used to discredit such innovations as employment equity selective recruitment of students from groups that have suffered systemic discrimination sexual harassment policies and women s studies programs casting these as forms of tyranny that destroy academic freedom and merit This anthology is the first sociological analysis of political correctness and the first study of the phenomenon in Canada Contributors argue on behalf of an inclusive university showing that recent reforms not only work toward broadening human rights but provide a welcome reorganization of knowledge All but two papers have been written specifically for this text **BOOK JACKET** Title Summary field provided by Blackwell North America Inc All Rights Reserved    Radical Conservatives for Liberal Education Amy Apfel Kass,1974    **Liberal Education** ,1964 Includes the Association s Proceedings    **Report of the South African Association for the Advancement of Science** South African Association for the Advancement of Science,1907    **Report of the Annual Meeting of the South African Association for the Advancement of Science** ,1907    *The Canada Lancet and Practitioner. ...* ,1904    *The Oxford University Extension Gazette* ,1894
