### **The Adversity Formula** Steven Mason,2024-06-14 Early in the

2020 pandemic author Steven Mason seeking inspiration to help cope during the Covid 19 crisis began to examine the lives of some of the great personalities from history After considerable research he discovered that many of these individuals had overcome significant adversity on their path to success After sharing these stories with others he was inspired to write this book The Adversity Formula Inspirational Lessons from History reviews the lives of thirty remarkable characters from history

to see how they dealt with adversity. The book goes onto provide a formula that readers can themselves apply to their own lives. Selected mainly from the 20th Century the fifteen men and fifteen women include scientists entrepreneurs humanitarians politicians entertainers sports stars and war heroes. The list contains well known names like Stephen Hawking, Steve Jobs and Walt Disney but also features lesser known profiles of Virginia Hall, Irena Sendler and Victor Frankl a holocaust survivor who after his experiences in the concentration camps developed a therapy to find meaning and purpose in adversity. The book looks at the adversity these greats faced what they achieved despite it but also how they dealt with adversity often using it to their advantage. Their coping mechanisms are summarised in five characteristics for each individual and packaged into a general formula for tackling life's problems. The conclusion found within these pages is that it is often how people respond to adversity that can determine successful outcomes. **The Adversity Formula: Inspirational Lessons from History** will be particularly relevant to those interested in self development especially during difficult times as well as those with a love of history. The book offers hope in the face of life's major challenges.

**An Embarrassment of Riches** Alexander Green, 2013-11-06

Tune into the news and you'll hear stories of war, disease, natural disasters, corruption, violence, poverty, crime, nuclear proliferation, terrorism, and political dysfunction in Washington. Polls show many believe the American dream is fading, our children face limited opportunities, and the country is decidedly on the wrong track. Yet this dour perspective one recycled 24/7 by the national media is a gross distortion of the world we live in today. As national investment expert and bestselling author Alexander Green reveals in this engrossing and provocative new book, the human race has never had it so good. In the West today we work shorter hours, have more purchasing power, enjoy goods and services in almost limitless supply, and have more leisure time than ever before. Living standards are the highest they have ever been. The human life span has nearly doubled over the past hundred years. Literacy and education levels, even IQs, are at all-time highs. Technology and medicine are revolutionizing our lives. All forms of pollution, with the exception of greenhouse gases, are in decline. Access to the arts has never been greater. Crime is in a long-term cycle of decline. And the risk of death by violence has never been smaller for most of humanity. By almost every measure, our lives today are wealthy beyond measure. We are all heirs to an embarrassment of riches. Yet, thanks in large part to the drumbeat of negative media coverage, most of us don't realize it. Green compares the average citizen to a lottery winner whose ticket is lost in some upstairs drawer. The consequences of adopting the cynical but popular worldview are many, including needless pessimism, missed investment opportunities, and surprisingly even poorer health. Yet *An Embarrassment of Riches* provides a powerful antidote. Green begins with a robust survey of the many ways our lives are becoming longer, easier, safer, healthier, and more prosperous. He then embarks on a wide-ranging exploration of the ideas and the many men and women, both living and dead, that are still enriching our lives today. Among the many subjects explored are American exceptionalism, the extraordinary power of economic freedom, the lifesaving role of medicine and technology, the life-extending benefits of optimism, the radical

theology of Thomas Jefferson the keys to civility and greatness the wisdom of Confucius and Aristotle the ability of beauty to enrich our lives and even one artist's thought provoking take on how to defeat death In An Embarrassment of Riches New York Times bestselling author Alexander Green offers a holistic approach to wealth and offers a welcome perspective that allows us to live fuller richer lives Accelerate Your Abundance Beyond "Think and Grow Rich" Babatunde
