The Marriage Proposal English Edition:

English Classics in Audiovisual Translation Irene Ranzato, Luca Valleriani, 2024-10-23 This collection explores the translation of dialogue from the adaptations of literary classics across audiovisual media engaging with the question of what makes a classic through an audiovisual translation lens. The volume seeks to fill a gap on the translation of classic texts in AVT research which has tended to focus on contemporary media. The book features well known British literary texts but places a special emphasis on adaptations of the works of Jane Austen and William Shakespeare figures whose afterlives have mirrored each other in the proliferation of film and television adaptations of their work. Chapters analyze myriad modes of AVT including dubbing, subtitling, SDH and voice over to demonstrate the unique ways in which these modes come together in adaptations of classics and raise questions about censorship, language ideologies, cultural references, translation strategies, humor, and language variation. In focusing on translations across geographic contexts the book offers a richer picture of the linguistic, cultural, and ideological implications of translating literary classics for the screen and the enduring legacy of these works on a global scale. This book will be of interest to scholars in audiovisual translation, literary translation, comparative literature, film and television studies, and media studies.

Operas in English: A Dictionary Margaret Ross

Griffel, 2012-12-21 In this revised and expanded edition of *Operas in English: A Dictionary* Margaret Ross Griffel updates her work on operas written specifically to an English text including not only works originally in English but also those set to new English librettos. Since the book's initial publication in 1999 Griffel has added nearly 900 new items bringing the total number of entries in this new edition to 4,400 covering the world of opera in English from 1634 through 2011. The front matter includes a brief history of English opera to set the stage for the dictionary entries that follow. Listed alphabetically, each opera entry includes alternative titles, a full descriptive title, the number of acts, composer's name, librettist's name, with original language of the libretto, the source of the text, date, place and cast of the first performance, date of composition if it occurred substantially earlier than the premiere, similar information for the first U.S. including colonial and British, England, Scotland, Wales performances, brief plot summary, main characters' names and vocal ranges where known, names of noteworthy numbers, comments on special musical problems and techniques, other settings of the text including non-English ones, other operas if any involving the same story or characters, cross references are indicated by asterisks. Entries include such information as first and critical editions of the score and libretto, a bibliography ranging from scholarly studies to more informal journal articles and reviews, a discography and information on video recordings. *Operas in English* features four appendixes, a selective bibliography and two indexes. The first appendix lists composers' places and years of birth and death and their operas included in the text as entries, the second does the same for librettists, the third records authors whose works inspired or were adapted for the librettos and the fourth comprises a chronological listing of the A-Z entries including the date of first performance, the city of the premiere or composition date if unperformed or performed much later, the short
