*Exemplars of Assessment in Higher Education* Jane Marie Souza,Tara A. Rose,2023-07-03

Co published with While assessment may feel to constituents like an activity of accountability simply for accreditors it is most appropriate to approach assessment as an activity of accountability for students Assessment results that improve institutional effectiveness heighten student learning and better align resources serve to make institutions stronger for the benefit of their students and those results also serve the institution or program well during the holistic evaluation required through accreditation from the foreword by Heather Perfetti President of the Middle States Commission on Higher Education Colleges and universities struggle to understand precisely what is being asked for by accreditors and this book answers that question by sharing examples of success reported by schools specifically recommended by accreditors This compendium gathers examples of assessment practice in twenty four higher education institutions twenty three in the U S and one in Australia All institutions represented in this book were suggested by their accreditor as having an effective assessment approach in one or more of the following assessment focused areas assessment in the disciplines co curricular course program institutional assessment equity and inclusion general education online learning program review scholarship of teaching and learning student learning or technology These examples recommended by accrediting agencies makes this a unique contribution to the assessment literature The book is organized in four parts Part One is focused on student learning and assessment and includes ten chapters The primary focus for Part Two is student learning assessment from a disciplinary perspective and includes four chapters Part Three has a faculty engagement and assessment focus and Part Four includes four chapters on institutional effectiveness and assessment with a focus on strategic planning This book is a publication of the Association for the Assessment of Learning in Higher Education AALHE an organization of practitioners interested in using effective assessment practice to document and improve student learning

*Applied Rasch Measurement: A Book of Exemplars*

Sivakumar Alagumalai,David D. Curtis,Njora Hungi,2006-03-30 While the primary purpose of the book is a celebration of John s contributions to the field of measurement a second and related purpose is to provide a useful resource We believe that the combination of the developmental history and theory of the method the examples of its use in practice some possible future directions and software and data files will make this book a valuable resource for teachers and scholars of the Rasch method This book is a tribute to Professor John P Keeves for the advocacy of the Rasch model in Australia Happy 80th birthday John xii There are good introductory texts on Item Response Theory Objective Measurement and the Rasch model

However for a beginning researcher keen on utilising the potentials of the Rasch model theoretical discussions of test theory and associated indices do not meet their pragmatic needs Furthermore many researchers in measurement still have little or no knowledge of the features of the Rasch model and its use in a variety of situations and disciplines This book attempts to describe the underlying axioms of test theory and in particular the concepts of objective measurement and the Rasch model and then link theory to practice We have been introduced to the various models of test theory during our graduate days It was time for us to share with those keen in the field of measurement in education psychology and the social sciences the theoretical and practical aspects of objective measurement

**WSAS Knowledge and Concepts Examinations Writing Exemplar Booklet ,1998    The NAEP ... Technical Report ,1999    Exemplars of the Teacher's Cognitive Domain**

R. C. Bradley,Norman Wesley Earp,1967    Teaching STEM and Common Core with Mentor Texts Anastasia Suen,Shirley L. Duke,2013-12-02 Librarians can use this book to become leaders in their schools collaborating with teachers to keep them abreast of resources that will facilitate the inclusion of STEM in the curriculum Teaching STEM and Common Core with Mentor Text explains the basics of STEM Science Technology Engineering and Mathematics and shows how librarians can become a key component in STEM education guiding teachers and sparking interest though the books and technology inherent in their curriculum The volume offers 20 mentor texts plus in depth collaborative lesson plans linked to the Common Core Standards for K 5 librarians There are additional lessons for classroom teachers as well as activities that can easily be done in the library or classroom Each lesson includes mentor text information an overview of the lesson step by step lesson plans assessment options and extension activities By implementing these lessons in the library librarians will be able to cover multiple Common Core State Standards and science standards and at the same time establish the library as a resource for teaching STEM subjects

**Exemplar Series: Assessing student performance, grades 9-12 Miles Myers,Elizabeth Spalding,1997    ECEL2015-14th European Conference on e-Learning, Amanda Jefferies and Marija Cubric**
