

1: Business activity

Revision checklist

- Business activity combines the factors of production to produce goods and services that meet consumer needs and wants.
- The economic problem and the problem of scarcity are due to unlimited needs and wants of consumers which cannot be met by businesses because they have limited factors of production. Choices must be made and this creates an opportunity cost.
- Specialisation of both labour and capital helps businesses to produce more goods and services at a lower cost.
- Businesses add value by taking raw materials and turning these into goods and services that they can sell to consumers.

Class in the New Millennium Will Atkinson, 2017-02-17 *Class in the New Millennium* paints a fresh and comprehensive picture of social class in Britain today. Anchored in a broad repertoire of methods and pursuing a distinctive theoretical agenda, it not only painstakingly maps the structure transformation and effects of the UK's key fault lines but goes behind closed doors to see how they play out in everyday family life. Throughout the book, Atkinson throws new light on a diverse array of themes including the continued effects of deindustrialisation, educational expansion, feminisation of the workforce, and surging employment insecurity; the persistence of lifestyle cleavages despite cultural and technological change; the growth of political disengagement; the transformation of the Labour Party and the rise of nationalism; the entwinement of class with space, place, and physical movement; and the way in which class interacts with intimate relations to shape not just the way we decorate our walls or talk over the dining table but the very reproduction of the class structure itself. This innovative title will appeal to scholars as well as advanced undergraduate and postgraduate students interested in the fields of sociology, politics, and political science, cultural studies, cultural geography, social policy, and social work. *Advances in The Ergonomics in Manufacturing: Managing the Enterprise of the Future* Stefan Trzcielinski, Waldemar
