**Environmentalism** Joanne R Bauer, 2015-01-28 Drawing on an unusually rich empirical base this timely and compelling book examines how environmental values are constructed and legitimized within the policy process It trains the spotlight on four environmentally significant countries China Japan India and the United States representing a wide diversity of cultural social economic and political characteristics Through a combination of case studies and comparative analysis the contributors illuminate cultural assumptions standards and analytic techniques that shape environmental actions and policies around the world *Forging Environmentalism* provides valuable direction regarding what can be done to secure public support for environmental policies Incorporating expert legal economic philosophical sociological and political perspective points the way toward the possibilities for a convergence of environmental norms and values across diverse cultures      *Theatre as Alter/"Native" in Derek Walcott* Nirjhar Sarkar, 2023 *Theatre as Alter Native in Derek Walcott* attempts a close and detailed politico aesthetic analysis of his major plays At the core of this book lies the attempt to answer the question of how postcolonial artists and intellectuals have dared to imagine radically different ways of living in the face of oppositional binary choices And as the title suggests Walcott s plays carve out critical spaces for new narratives of becoming and alternative

priorities entangled in contesting identities inscribed by race language and ethnicity Theatre as Walcott knew would be instrumental in demystifying Caribbean Absence and Void and generating an alternative version of dominant reality By a deliberate unseating of the Western texts filled with banal stereotypes and their representational biases and by triggering reaction to the scripts of the colonizers in profoundly paradoxical ways Walcott's plays affirm the Caribbean identity This study seeks to demonstrate how his plays open an alter native universe in terms of aesthetics dramaturgy and the performative and reclaims New World identity in terms of negotiation rather than negation undermining the claim of solid authentic culture Placing the arts at the forefront of nation building Walcott situated his plays at a crucial juncture between the passing of the Empire and the newly born Federation in his archipelago From Ocean to Aquarium Colette Wabnitz,2003 *Sea Breezes* ,1981 **Understanding the Cultures of Fishing Communities** James R. McGoodwin,Food and Agriculture Organization of the United Nations,2001-01-01 Small scale fishing accounts for almost 95% of the world's fishing and it has been estimated that small scale fishing activities support the livelihoods of more than 200 million people worldwide The purpose of this document is to help fisheries officials gain a clearer understanding of the cultures of small scale fishing communities It is hoped this will enable the development of more successful management policies and practices and empower people in such communities to improve their livelihoods The document highlights the importance of sustaining the rights of access to resources and the integration of cultural considerations into fisheries management policies It includes six case studies from distinct cultural regions of the world **Houses and House Use of the Sierra Tarascans** Ralph Leon Beals,Pedro Carrasco Pizana,Thomas McCorkle,1944 **The Last of the Hunter Gatherers** Michael Wigan,1998 Focuses on the world's major fishing countries and their responses to diminishing catches **Climate Change, Small-Scale Fisheries, and Blue Justice** Sunil Santha,2023-04-14 This book is a narrative non fiction based on the patchy epistemologies of traditional small scale fishers in India and the Indian Ocean region It specifically explores the impact of climate change on Fish and Fishers and the mutual entanglements in their eco social world Further it critically examines the nature of climate change adaptation and its implications on small scale fisheries Both climate change impact and adaptation responses are examined from the situated knowledge and everyday lived experiences of Fishers Stories of their everyday struggles from diverse eco social worlds shape these patchy epistemologies Further this book through these stories unearths the transitions in governance and changing relationships between Fish Fishers and the rest of the eco social world Responding ethically to the problems of climate change warming oceans fish scarcity overfishing and pollution requires us to break away from the paradigms that locate Nature and Society as binaries and commodities Blue justice can be achieved only if strategies aimed at adaptation conservation and well being are dialogical inclusive and Fish Fisher centred This book offers insights into the worldviews of Fishers and their stewardship wisdom and experience in healing today's warming world Locating the eco social worlds of Fish and Fishers in alternative worldviews this book strives to find meaningful pathways for

just transitions It will be of interest to academics and researchers working in the field of climate change fisheries disaster studies and sustainable livelihoods as well as related subjects of social work and social justice     *Report on the Sea Fisheries and Fishing Industries on the Thames Estuary* James Murie,Kent and Essex Sea Fisheries Committee,1903
