Laboring Below the Line Frank Munger, 2002-04-25 As the distribution of wealth between rich and poor in the United States grew more and more unequal over the past twenty years this economic gap assumed a life of its own in the popular culture The news and entertainment media increasingly portrayed the lives of the poor with such stereotypes as the lazy welfare mother and the thuggish teen offering Americans few ways to learn how the other half really lives Laboring Below the Line works to bridge this gap by synthesizing a wide range of qualitative scholarship on the working poor The result is a coherent nuanced portrait of how life is lived below the poverty line and a compelling analysis of the systemic forces in which poverty is embedded and through which it is perpetuated Laboring Below the Line explores the role of interpretive research in understanding the causes and effects of poverty Drawing on perspectives of the working poor welfare recipients and marginally employed men and women the contributors an interdisciplinary roster of ethnographers oral historians qualitative sociologists and narrative analysts dissect the life circumstances that affect the personal outlook ability to work and expectations for the future of these people For example Carol Stack views the work aspirations of an Oakland teenager for whom a job is important even though it strains her academic performance And Ruth Buchanan looks at low wage telemarketing workers who are attempting to move up the economic ladder while balancing family education and other important commitments What emerges is a compelling picture of low wage workers one that illustrates the precarious circumstances of individuals struggling with the economic conditions and institutions that surround them Each chapter also explores the capacity for economic survival from a different angle with ancillary commentary complementing the ethnographies with perspectives from other fields of study such as economics At this moment of governmental retrenchment ethnographies complex nonstereotypical portraits of individual people fighting against poverty are especially important Laboring Below the Line reveals the ambiguities of real lives the potential for individuals to change in unexpected ways and the even greater intricacy of the collective life of a community

Social Welfare Programs and Social Work Education at a Crossroads Antonio López Peláez, Annaline Keet, Chung Moon Sung, 2024-07-17 This book explores a key phenomenon that has been accelerated by the COVID 19 crisis namely the crossroads at which social welfare professionals find themselves This is a crossroads where on the one hand there is an accelerated digitalization process and a reorganization of social programs while on the other hand we are confronted by the basic challenge of designing social policies and their methods of evaluation that is the generation of robust data that will allow better evaluation of social projects and programs Rigorously analyzing the crossroads at which social welfare programs find themselves and the new demands for the education of professionals involved in social welfare programs several key issues can be discerned the theoretical debate surrounding the changes brought about by the COVID 19 pandemic and the

process of redefining globalization in which we are immersed the challenges to be met by welfare programs and the good practices that are being implemented the key issue of how to generate more robust data in the field of social services and social protection how to increase the competencies of professionals through education in schools of social work Providing 15 newly written chapters drawn from both the global north and the global south it offers a set of recommendations to address the challenges of inequality and social inclusion in the coming years It will be of interest to all academics students and practitioners working in the fields of social work social welfare and social development *Action research and education in contexts of poverty* João Francisco de Souza, Christine O'Hanlon, Orlando Fals-Borda, 2007 *Core Concepts in Evaluation* Lori A. Wingate, Ayesha S. Boyce, Lyssa Wilson Becho, Kelly N. Robertson, 2024-07-19 This unique book features original writings from evaluation's foundational thinkers together with new commentaries from contemporary authors Each section includes an introduction to a core evaluation concept by the editors a classic reading two commentaries on that topic by contemporary authors and a reflection guide written by the editors

Participatory Action Research (par) Experience by a Non-governmental Organization (NGO) in Ethiopia Sakae Yamada, 1995 *Fundamentals of Action Research: Reviews, critiques, and new directions* Bill Cooke, Julie Wolfram Cox, 2005 **Nurtured by Knowledge** Susan Elizabeth Smith, Dennis George Willms, Nancy Arbuthnot Johnson, 1997 This book describes the struggle to build on a twenty five year approach to democratic social change and personal growth known as participatory action research PAR It based on the principle that people have a universal right to participate the production of knowledge that directly affects their lives The heart of the book is a series of compelling case studies of PAR and attempts to achieve it in such diverse places as Canada India Africa and Latin America The final chapter analyzes lessons from these case studies and explores the principles and evolving processes of the PAR methodology in striving to satisfy the need for liberation and recovery of community Back cover

Strategies of Qualitative Inquiry Norman K. Denzin, Yvonna S. Lincoln, 2003-02-13 The second edition of the paperback series of the Handbook of Qualitative Research is virtually all new Over half of the authors from the first edition have been replaced by new contributors there are 33 new chapter authors or co authors There are six totally new chapter topics including contributions on queer theory performance ethnography testimonios focus groups in feminist research applied ethnography and anthropological poetics All returning authors have substantially revised their original contributions in many cases producing a totally new and different chapter This second volume Strategies of Qualitative Inquiry consists of Part Three of the Handbook Strategies of Inquiry Strategies of Qualitative Inquiry isolates the major strategies that researchers can use in conducting concrete qualitative studies The question of methods begins with the design of the research project which Valerie Janesick describes in dance terms Design issues also involve matters of money and funding issues discussed by Julianne Cheek Questions of design always begin with a socially situated observer who moves from a research question to a paradigm or perspective and then to the empirical world So located the researcher then addresses a

range of methods that can be employed in any study The history and uses of these strategies are explored extensively in this volume The chapters move from performance ethnography to case studies issues of ethnographic representation grounded theory strategies testimonios life histories participatory action research and clinical research **The Role of Participatory Communication in Health Policy Making in Ghana** Jennifer Baaba Quashie, 2003 Collaborative Action Research Stephen P. Gordon, 2008-09-05 Exploring critical aspects of collaborative action including establishing relationships using critical friends developing leadership teams readiness organization and implementation this book provides lessons learned from successful and unsuccessful programmes to show schools what to do and what to avoid Doing Research with Children and Young People Sandy Fraser, 2004 Doing Research with Children and Young People introduces researchers to the key considerations involved in working with children and young people **Handbook of Feminist Research** Sharlene Nagy Hesse-Biber, 2007 The topic feminist research has too often been neglected in standard research methods books The Handbook of Feminist Research represents the establishment of a new tradition or paradigm in viewing how the research process is implemented Feminist researchers bring unique epistemological and methodological perspectives to the research process Feminists approach to methodology allows for new types of questions about women's lives and those of other marginalized groups to be addressed within their respective fields of research This Handbook stresses the interconnections between epistemology methodology and methods They are not de-linked from each other but work together in dynamic ways to produce new knowledge and this openness itself is also characteristic of how feminist researchers approach their work Feminists engage synergistically with all three aspects of the research process epistemology methodology and method Through a synergistic connection between these elements of research epistemology methodology and method we find that feminist research often shapes new research endeavors that are greater than the sum of their parts In other words while traditional research employs these components of research the synergistic engagement of these components in feminist research questions the status quo aiming to raise our consciousness about how we do research Looking at the selections provided in this Handbook we are able to look at feminist research its implementation of synergistic use of epistemology methodology and method and the resulting qualities of feminist research in practice **Doing Community-based Research** Danny Murphy, Madeleine Scammell, Richard Sclove, 1997 Community Economic Development Eric Shragge, 1997 Revised and expanded this second edition looks at situations anew in terms of current contexts of community economic development Chapters on women on an African example and community ownership on marginalized peoples and on community corporations have been added **Collaborative Research in Multilingual Classrooms** Corey Hawes Denos, 2009 Reporting on the research collaborations of a group of teachers graduate students and a university professor this book weaves together their collective insights about how classrooms might be better for students of diverse linguistic and cultural backgrounds abilities and socio economic circumstances and better for teachers as well It also shows how research

collaborations can result in rich and compelling descriptions of classroom events Written in a style accessible to teachers and student teachers it introduces sociocultural perspectives on identity classroom and community practices helping and transformative possibilities using teacher narratives to reflect the complexity of classroom decision making and reflective action
