The Story Box in the Classroom Andrea Butler,1984 *Threads of Thinking* Cathy Nutbrown,1999-07-23 If you are interested in understanding the behaviour and interests of young children this is the place to start Cathy Nutbrown draws upon her own extensive experience of working

with children and Early Years Practitioners to demystify the concept of Schemas These are recognizable patterns of behaviour which indicate how children are making the connections necessary for the development of thought and understanding The extensive illustrations and jargon free text make this an excellent text for students parents and workers who wish to be more closely in tune with young children It is the book that I most often lend or recommend to Early Years colleagues and students Seriously interested readers will almost certainly also wish to read the seminal work of Chris Athey 1990 Extending Thought in Young Children A Parent Teacher Partnership published by Paul Chapman Publishing London Amazon Review If you are interested in understanding the behaviour and interests of young children this is the place to start Cathy Nutbrown draws upon her own extensive experience of working with children and Early Years Practitioners to demystify the concept of Schemas These are recognizable patterns of behaviour which indicate how children are making the connections necessary for the development of thought and understanding The extensive illustrations and jargon free text make this an excellent text for students parents and workers who wish to be more closely in tune with young children It is the book that I most often lend or recommend to Early Years colleagues and students Seriously interested readers will almost certainly also wish to read the seminal work of Chris Athey 1990 Extending Thought in Young Children A Parent Teacher Partnership published by Paul Chapman Publishing London Amazon Review The focus of Threads of Thinking is on children's patterns of learning and thinking particularly schemas However the book as a whole is much more than that and provides material for reflection by anyone working with and for young children Many of the examples discussed are ones considered in the First Edition but the changes Cathy Nutbrown has made throughout the book bring it right up to date including some speculation on the ideas of a foundation stage in England There is much here that is valuable for reading alone but also a lot that could be shared by groups of people including those already working in the field as well as those in training International Journal of Early Years Education There are some excellent sections on scientific and mathematical learning in Part Three Many practical ideas are provided for developing these concepts in young children There are also excellent sections on literacy that again provide valuable insight into developing these concepts There are valuable ideas and suggestions in the book and I feel that teachers of young children in nurseries or early years settings would be quite interested in the contents Education Review Threads of Thinking Second Edition is a book for teachers in nursery and early education and for other professional educators who wish to support and develop children's thinking The author presents evidence of continuity and progression in young children's thinking and shows with detailed observations that they are able and active learners She considers aspects of children's patterns of learning and thinking or schemas and demonstrates clearly how children learn in an active dynamic and creative way Numerous examples of young children in action are used which illustrate their learning in areas of literacy mathematics and science Implications for curriculum assessment and work with parents are thoroughly considered in a style that compels attention to children's own learning agendas Threads of Thinking was first published in 1994 and though

children's ways of learning may not have changed the national context of early childhood education has undergone quite radical change. In response to these and other important policy developments this fully revised Second Edition includes numerous detailed descriptions of children learning and discusses those observations in the light of our understanding about how children learn and how early childhood educators might teach. The impact of current national policies is addressed throughout including the implications for teachers of early assessment and the relationship of assessment to learning.

Emotional Literacy Andrew Moffat, 2017-07-05 This is an exciting hands on resource comprising over 200 whole class lesson plans. These can be used with a class in their very first week at school in Year 1 right through to their last week in Year 6. Each lesson plan focuses on a text provides prompts for discussion and gives clearly explained engaging activities to suit all learning styles. The lesson plans are based on 152 popular children's books. There are many cross curricular opportunities with specific links to literacy particularly through the drama speaking and listening plans of the Renewed Primary Strategy. The scheme also includes Circle Time games specially selected for their positive effect on the emotional well being of the child. The author who is an Advanced Skills Teacher spent two years developing the scheme of work. Each lesson plan has been tried and tested in many schools and is steeped in excellent primary practice. The scheme is designed to support the aims of the Every Child Matters agenda. The plans are differentiated by year group and are set out in modules which each last for six weeks making the resource a manageable format for class teachers to use and an ideal solution to the delivery of SEAL Primary.
