Americans At The Gate Americans At The Gate:

Americans at the Gate Carl J. Bon Tempo, 2008-10-05 Unlike the 1930s when the United States tragically failed to open its doors to Europeans fleeing Nazism the country admitted over three million refugees during the Cold War This dramatic reversal gave rise to intense political and cultural battles pitting refugee advocates against determined opponents who at times successfully slowed admissions The first comprehensive historical exploration of American refugee affairs from the midcentury to the present Americans at the Gate explores the reasons behind the remarkable changes to American refugee policy laws and programs Carl Bon Tempo looks at the Hungarian Cuban and Indochinese refugee crises and he examines major pieces of legislation including the Refugee Relief Act and the 1980 Refugee Act He argues that the American commitment to refugees in the post 1945 era occurred not just because of foreign policy imperatives during the Cold War but also because of particular domestic developments within the United States such as the Red Scare the Civil Rights Movement the rise of the Right and partisan electoral politics Using a wide variety of sources and documents Americans at the Gate considers policy and law developments in connection with the organization and administration of refugee programs
