Bus 59strategic Management Comprehensive Exam:

Strategic System Assurance and Business Analytics P. K. Kapur, Ompal Singh, Sunil Kumar Khatri, Ajit Kumar Verma, 2020-06-19 This book systematically examines and quantifies industrial problems by assessing the complexity and safety of large systems. It includes chapters on system performance management, software reliability assessment, testing, quality management, analysis using soft computing techniques, management analytics, and business analytics with a clear focus on exploring real world business issues. Through contributions from researchers working in the area of performance management and business analytics, it explores the development of new methods and approaches to improve business by gaining knowledge from bulk data. With system performance analytics, companies are now able to drive performance and provide actionable insights for each level and for every role using key indicators, generate mobile enabled scorecards, time series based analysis using charts and dashboards. In the current dynamic environment, a viable tool known as multi criteria decision analysis MCDA is increasingly being adopted to deal with complex business decisions. MCDA is an important decision support tool for analyzing goals and providing optimal solutions and alternatives. It comprises several distinct techniques which are implemented by specialized decision making packages. This book addresses a number of important MCDA methods such as DEMATEL, TOPSIS, AHP, MAUT, and Intuitionistic Fuzzy MCDM which make it possible to derive maximum utility in the area of analytics. As such, it is a valuable resource for researchers and academicians as well as practitioners and business experts.
