Outward Foreign Direct Investment in ASEAN Cassey Lee, 2017-02-15. The level of outward foreign direct investment OFDI flows from ASEAN countries has increased rapidly in past two decades. This book examines OFDI trends and patterns in the ASEAN region including the impact of the ASEAN Economic Community. It also provides analyses of country policies affecting OFDI and the drivers of OFDI in Indonesia Malaysia Singapore and Vietnam. Myanmar is studied as an investment frontier for other ASEAN countries. The dynamic economies of Southeast Asia have historically been very large recipients of foreign direct investment FDI. As global capital markets have opened up and these economies have developed their technological and commercial capabilities in more recent years Southeast Asia has emerged as a significant source of outward FDI both within the region and beyond. This important volume by a group of leading regional scholars offers a timely comprehensive accessible and authoritative analysis of this phenomenon. Hal Hill H W Arndt Professor of Southeast Asian Economies Arndt Corden Department of Economics Crawford School of Public Policy Australian National University. A timely rich and comprehensive study filling a major gap in the literature on the increasingly important phenomenon of foreign investment flowing out from regions including developing and middle income countries.
