Principles 3rd edition For further information please see main text ISBN 071675701X Atkins' Physical Chemistry Peter William Atkins, Julio De Paula, 2002 This major revision of the world's leading textbook of physical chemistry has maintained its tradition of accessibility but authority and has brought it thoroughly up to date. The new author team has introduced many innovations. There are new or rewritten chapters on the solid state, on molecular interactions, macromolecules and electron transfer. Almost every chapter has at least one box showing the relevance of the material to modern chemistry. All the chapters now conclude with a check list which includes definitions and key equations. The authors have paid special attention to the presentation of mathematical derivations and to the physical interpretation of equations. They have also ensured that the text is highly modular so that it can be used in different sequences either atoms first or thermodynamics first. The art program has been redrawn and extended, new discussion questions have been added and the Further Information sections have been recast to provide the necessary background in mathematics and physics. The text is fully geared to the web with full media support. **SUPPLEMENTS AND SUPPORT MATERIAL** 1 Web site featuring Living Graphs about 150 dynamic interactive graphs that allow experimentation and hands on learning. Web links to sources of data and other information as referred to in the book. 2 Student's Solutions Manual containing worked solutions to half the end of chapter exercises and problems in the parent text. 3 Instructor's Solutions Manual FREE to adopters of the parent text containing worked solutions to the other half of the end of chapter exercises and problems in the parent text. Contains a CD ROM with all the illustrations from the text for use in presentations. 4 MathCad Mathematica supplement book with CD ROM to take all living graphs further. **NEW TO THIS EDITION** DT New co author Julio de Paula a biophysical chemist strengthens the text's coverage of
