Australian Income Tax Guide, 1980 **101 Ways To Save Money On Your Tax - Legally 2016-2017** Adrian Raftery, 2016-05-16 Mr Taxman is back with essential money saving tax tips for 2016 2017 101 Ways to Save Money on Your Tax Legally is the Australian taxpayer s essential guide to maximising returns Comprehensively updated for 2016 2017 this indispensable resource explains all of the changes to the May 2016 budget to help you pay what you owe and not a penny more You ll find answers to common questions tax traps to avoid and plenty of tips from Mr Taxman himself that can save you hundreds or even thousands of dollars Leverage your business education family property medical expenses levies shares and superannuation to get the tax return you deserve and are fully entitled to under Australian law You ll also find expert advice for tax effective investments tax planning and how to find a great accountant so you can position yourself for an even bigger return next year Taxes are important and they pay for things that are fundamental to a functioning society but the government is only entitled to so much of your money This book helps you determine exactly how much that is so you can stop overpaying and start maximising your return Maximise deductions for your family business investments and more Understand the latest changes to tax law Identify traps and errors before it s too late Access planning and filing tips for your specific situation Every year so many Australians overpay their tax due to confusion surrounding tax law Don t allow obscure language and complicated deductions to take money out of your pocket this year It s your money and you worked hard for it Why pay more than you have to 101 Ways to Save Money on Your Tax Legally shows you how to maximise deductions to maximise returns and make sense out of your tax *Justice, Equality and Tax Law* Nevla Čičin-Šain, Mario Riedl, 2022-10-05 An in depth analysis of the specific aspects of justice equality and tax law Justice Equality and Tax Law is a topic that is both old and new at the same time Even if the society changes the demands that tax needs to be just and equal seem to be immutable What changes of course is the perception of the content of those demands International taxation post BEPS has been fraught with new challenges that warranted urgent responses These challenges were mainly provoked by the unprecedented rise of the digital economy which truly marked a change in the way business is conducted how value is created and how goods and services are produced and consumed Digitalization in turn had repercussions on all aspects of taxation direct taxation indirect taxation and even tax procedures For instance the quest for more justice and equality in profit taxes was the reason why in October 2021 a historical deal based on a two pillar solution to address the tax challenges arising from the digitalization of the economy was negotiated within the OECD G20 Inclusive Framework on Base Erosion and Profit Shifting and agreed upon by 137 member countries It was also the motive behind the shift from a typical vendor collection model to an intermediary collection model supported by centralized registration points in indirect taxes notably the VAT GST Abundant data from the European Union or the OECD signaled an ever increasing gap between expected VAT revenues and VAT actually collected making it obvious that the classical system of VAT GST collection was unable to respond

to challenges posed by the digital economy Therefore new solutions based on the participation of digital platforms as intermediaries had been introduced Finally new technologies such as blockchain paved new avenues in enhancing tax compliance In this context this volume entitled Justice Equality and Tax Law contains not only a selection of the best master s theses of the full time LL M programme in 2021 2022 but also represents an in depth analysis of various aspects of this evergreen topic
