Authentic Leadership Discover And Live Your Essential Mission:

Authentic Academic Leadership Jeffrey L. Buller, 2018-02-23 The book explores how to build an approach to academic leadership based on your own personal values convictions and principles Rather than trying to assert that only certain values or even virtues are essential for good leadership the approach taken is to begin with who you really are your true self and then to build a leadership framework consistent with that identity that makes your institution or program stronger We explore why hypocrisy is damaging to any form of leadership but particularly so in higher education where values of scholarship and research are based on the confidence we have in others integrity As a result authenticity even more than such commonly promoted traits of leaders as vision courage and compassion becomes the core of effective leadership in the academy today Through hypothetical case studies and thought experiments the book challenges administrators to identify a small set of core values that truly define who they are as academic leaders and then to use those values as the basis for a philosophy of leadership that guides them through the turbulent changes occurring in higher education today *New Horizons in Positive Leadership and Change* Satinder Dhiman, Joan Marques, 2020-03-11 This edited volume provides managers as well as students with the best practices in effectively leading the 21st century workforce and managing change It applies positive principles arising from the newly emerging fields of positive psychology positive change and positive organizational studies to the field of leadership and change offering managers strategies and tools to lead change effectively in the present day boundary less work environment At its most fundamental level the uniqueness of this volume lies in its anchorage in the moral and spiritual dimension of leadership an approach most relevant for contemporary organizations
