Authority Is Relational Rethinking Educational Empowerment:

Authority Is Relational Charles Bingham, 2009-01-01 Written in an accessible and personal style this innovative study of authority in education examines scenarios of authority in ways that problematize augment and redefine prevalent ideas of how it works Usually seen as a thing that people have the author suggests that authority should be understood instead as a relation that happens between people which gets enacted in circuits where each participant has a role to play those circuits can include teachers students the books they read as well as former teachers and former students Drawing on ideas from psychoanalysis hermeneutics philosophy of language and the work of Jacques Derrida and Paulo Freire the book offers a useful new understanding of authority in education *Authority Is Relational* Charles Bingham, 2008-05-29 A must read for anyone who wants to think in depth about contemporary classrooms *Education, Authority, and the Critical Citizen* Neil Wilcock, 2023-08-24 This book offers a unique analysis of the tension between the individual and society in educational contexts and the role that citizenship and democratic education can play It approaches the question from two different perspectives the institutional and the interactional and argues that any solution must answer the tension from both or it will necessarily fail The answer is found through a political methodology that places education at the centre and concludes that a balance can be found if we embrace the federated disestablishment of education and state and internally democratic schooling that aims to realise the emancipation of the political child The book situates itself in the tradition of political philosophy that is education focused identifying an unresolved tension between the individual and society in the works of Rousseau Dewey and Freire It discusses the concept of authority as a primary issue persisting in this tension It does so by exploring both interactional and institutional responses based on the idea of the free individual and cooperative associations The author advocates an education system that creates the necessary space for the cultivation of the free individual and is run by the principles of internally democratic schooling With a strong focus on citizenship and the role of education in the development of social justice oriented citizens this book will be of great interest to researchers academics and postgraduate students in the fields of philosophy of education political philosophy educational theory and citizenship education

Authority, Passion, and Subject-Centered Teaching Christopher J. Richmann, 2024-08-27 This book asserts that authority is a contested category and explores why traditional notions of authority are increasingly in tension with progressive and postmodern claims devolving into stalemate schizophrenia or power plays Offering a Christian framework as a philosophically coherent and practical alternative for teachers the author argues that Jesus provides a pattern from which to reconstruct our conception of teaching authority in ways that align with evidence informed teaching practices and cultivate intellectual virtues Rather than examine Jesus as teacher the book instead applies the central insight on authority that Jesus embodies This authority with which Jesus taught it argues stemmed from his passion that is passive even suffering experience The author aligns this to a subject centered conception of teaching as opposed to student centered or teacher

centered in which the subject is the authority and knowing is identified with being acted upon by the subject Teaching with authority thereby becomes a matter of unveiling suffering with students and inviting them into their own suffering encounter with the subject Building on the work on Parker Palmer and exploring pedagogical practice from a Christian perspective this book will appeal to scholars and researchers with interests in higher education evidence based teaching educational theory religion and education and Christian history and thought

Knowledge, Authority, and Islamic Education in the West

Zainab Kabba,2024-06-28 Drawing on immersive fieldwork in the United States Canada and Turkey this ethnographic exploration illuminates the transformative experiences of emerging adult Muslims on their quest for religious knowledge This book unravels the significance of four residential learning settings revealing their role as catalysts for reshaping Islamic tradition Delving into the interplay between technology s pervasive influence and the decentralized nature of Islamic interpretation Zainab Kabba unveils a vibrant tapestry of knowledge producers vying to shape religious understanding and practice among Western Muslims At the heart of this narrative lies the delicate balance between teachers and students continuously communicating and recalibrating components that bring religious authority to life Kabba dissects this relationship highlighting the emergence of a complex landscape that she terms the Muslim Education Industrial Complex where religious knowledge has become a commodity This study offers profound insights into the challenges of intra Muslim dialogue and the adaptive resilience of American Sunni Muslim communities Amidst a digital age and the complexities of global geopolitics surrounding Islam it showcases how these communities reinterpret classical Islamic narratives navigating tradition to steer their path forward This book invites readers to ponder the evolution of Islamic learning the dynamics of authority and the enduring quest for knowledge amidst the currents of a rapidly changing world

Who's Afraid of Political Education?

Henry Tam,2024-12-10 Democracy should enable citizens to play an informed role in determining how power is exercised for their common wellbeing but this only works if people have the understanding skills and confidence to engage effectively in public affairs Otherwise any voting system can be subverted to serve the interests of propagandists and demagogues This book brings together leading experts on learning for democracy to explore why and how the gap in civic competence should be bridged Drawing on research findings and case examples from the UK the US and elsewhere it will set out why change is necessary what could be taught differently to ensure effective political engagement and how a lasting impact in improving citizens learning for democratic participation can be made

The Oxford Handbook of Digital Religion
Campbell,2023-11-15 Digital Religion refers to the contemporary practice and understanding of religion in both online and offline contexts and how these contexts intersect with each other Scholars in this growing field recognize that religion has been influenced by its engagement with computer mediated digital spaces including not only the Internet but other emerging technologies such as mobile phones digital wearables virtual reality and artificial intelligence The Oxford Handbook of Digital Religion provides a comprehensive overview of religion as seen and performed through various platforms and cultural spaces

created by digital technology The text covers religious interaction with a wide range of digital media forms including social media websites gaming environments virtual and augmented realities and artificial intelligence and highlights examples of technological engagement and negotiation within the major world religions i e Buddhism Christianity Hinduism Islam and Judaism Additional sections cover the global manifestations of religious community identity ethics and authority with a final group of chapters addressing emerging technologies and the future of the field Because of the interdisciplinary nature of the project the Handbook is led by co editors representing the humanistic and social scientific fields of religious studies and communication though both also have experience in how those disciplines intersect *The Palgrave International Handbook of Alternative Education* Helen E. Lees,Nel Noddings,2016-08-31 This state of the art comprehensive Handbook fully explores the field of alternative education on an international scale Alternatives to mainstream schooling and education are becoming increasingly recognised as pertinent and urgent for better understanding what really works in successfully educating children and adults today especially in light of the increased performance driven and managerially organised economic modelling of education that dominates For too long we have wondered what exactly education done otherwise might look like and here we meet individual examples as well as seeing what alternative education is when a collection becomes greater than the sum of parts The Handbook profiles numerous empirical examples from around the world of education being done in innovative and excitingly democratic and autonomous ways from Forest Schools and Home Education through to new technologies neuroscience and the importance of solitude The book also sets out important theoretical perspectives to inform us why seeing education through an alternative lens is useful as well as urgently needed Global in its perspective and definitive in content this one stop volume will be an indispensable reference resource for a wide range of academics students and researchers in the fields of Education Education Policy Sociology and Philosophy as well as educational practitioners

The Rediscovery of Teaching Gert Biesta,2017-05-25 The Rediscovery of Teaching presents the innovative claim that teaching does not necessarily have to be perceived as an act of control but can be understood and configured as a way of activating possibilities for students to exist as subjects By framing teaching as an act of dissensus that is as an interruption of egological ways of being this book positions teaching at the progressive end of the educational spectrum where it can be reconnected with the emancipatory ambitions of education In conversation with the works of Emmanuel Levinas Paulo Freire Jacques Rancière and other theorists Gert Biesta shows how students existence as subjects hinges on the creation of existential possibilities through which students can assert their grown up place in the world Written for researchers and students in the areas of philosophy of education educational theory curriculum theory teaching and teacher education The Rediscovery of Teaching demonstrates the important role of teachers and teaching in the project of education as emancipation towards grown up ways of being in the world *Choice* ,2009 **2010** Redaktion Osnabrück,2011-06-16
