Autocad Express Nt Autocad Express Nt:

AutoCAD Express NT Timothy J. McCarthy,2012-12-06 AutoCAD Express NT is a comprehensive and fun introduction to producing drawings using the world's most popular package. It follows the successful approaches of AutoCAD Express and AutoCAD for Windows Express covering the latest developments and Release 14. New users are guided through the production of CAD drawings along a tried and tested learning curve with graded tutorial style chapters each one developing CAD techniques to solve specific drafting problems. Users get to appreciate how commands and tools interact to produce the desired result. The emphasis is on how to produce drawings quickly and efficiently not by using lengthy abstract descriptions. The reader discovers as much as is needed to control the CAD output extra features of the commands being discussed when they are useful. This is the Express approach designed to get you up and running with AutoCAD fast. It is indispensable for architects, town planners and all those involved in civil, structural, mechanical and design engineering. With the emphasis being on technique even existing AutoCAD users will learn many new tricks.

Constructing the Future Ghassan Aouad, Angela Lee, Song Wu, 2006-12-05 This essential book introduces the concept of nD modelling which takes the theory of computer modelling of the built environment to n dimensions. nD modelling utilizes a decision support tool for systematic assessment and comparison between various design parameters such as cost, accessibility, maintainability, sustainability, crime, energy, whole life costing, acoustics and scheduling among others. Constructing the Future is a comprehensive book which provides a global perspective on the concept of nD modelling and examines its impact on construction from development to application. The text offers a critique of competing views that seek to justify or ignore the role of nD modelling in the future of construction as well as describing developments in this area which are already happening worldwide. Presenting a thorough critique of competing views as well as providing guidance on best practice, Constructing the Future is a bold, well-grounded and illustrated title introducing construction management professionals and researchers to this exciting new development in the quest for a single building and product model.
