Australian Army Protocol Manual 2001:

Guidelines for Mine Waste Dump and Stockpile Design Mark Hawley, John Cunning, 2017-04-01 Guidelines for Mine Waste Dump and Stockpile Design is a comprehensive practical guide to the investigation design operation and monitoring of mine waste dumps dragline spoils and major stockpiles associated with large open pit mines. These facilities are some of the largest man made structures on Earth and while most have performed very well there are cases where instabilities have occurred with severe consequences including loss of life and extensive environmental and economic damage. Developed and written by industry experts with extensive knowledge and experience this book is an initiative of the Large Open Pit LOP Project. It comprises 16 chapters that follow the life cycle of a mine waste dump dragline spoil or stockpile from site selection to closure and reclamation. It describes the investigation and design process, introduces a comprehensive stability rating and hazard classification system, provides guidance on acceptability criteria and sets out the key elements of stability and runout analysis. Chapters on site and material characterisation, surface water and groundwater characterisation and management, risk assessment, operations and monitoring, management of ARD, emerging technologies and closure are included. A chapter is also dedicated to the analysis and design of dragline spoils. Guidelines for Mine Waste Dump and Stockpile Design summarises the current state of practice and provides insight and guidance to mine operators, geotechnical engineers, mining engineers, hydrogeologists, geologists and other individuals that are responsible at the mine site level for ensuring the stability and performance of these structures. Readership includes mining engineers, geotechnical engineers, civil engineers, engineering geologists, hydrogeologists, environmental scientists and other professionals involved in the site selection, investigation, design, permitting, construction, operation, monitoring, closure and reclamation of mine waste dumps and stockpiles.

Domestic Deployment of the Armed Forces Michael Head, Scott Mann, 2016-05-13 Until recently internal use of the armed forces has been generally regarded by the public as well as academic commentators as conduct to be expected of a military or autocratic regime not a democratic government. There is however growing concern that the war on terror has been used to condition public opinion to accept the internal deployment of the armed forces including for broader industrial and political purposes. This book examines the national and international law, human rights and civil liberties issues involved in governments calling out troops to deal with civil unrest or terrorism. As the introduction of military call out legislation has become an emerging global trend in the opening years of the 21st century there is considerable and growing interest in the constitutional and related problems surrounding the deployment of military forces for domestic purposes. Examining the changes underway in six comparable countries the United States, Canada, Britain, Germany, Japan and Australia, this book provides a review and analysis of this trend including its implications for legal and political rights.

Commentary on the Second Geneva Convention, 2017-12-21 The application and interpretation of the four Geneva Conventions of 1949 have developed significantly in the sixty years since the International Committee of the Red Cross (ICRC) first published its

Commentaries on these important humanitarian treaties To promote a better understanding of and respect for this body of law the ICRC commissioned a comprehensive update of its original Commentaries of which this is the second volume Its preparation was coordinated by Jean Marie Henckaerts ICRC legal adviser and head of the project to update the Commentaries The Second Convention is a key text of international humanitarian law It contains the essential rules on the protection of the wounded sick and shipwrecked at sea those assigned to their care and the vessels used for their treatment and evacuation This article by article Commentary takes into account developments in the law and practice to provide up to date interpretations of the Convention The new Commentary has been reviewed by humanitarian law practitioners and academics from around the world including naval experts It is an essential tool for anyone working or studying within this field

Commentary on the Third Geneva Convention ,2021-09-09 The application and interpretation of the four Geneva Conventions of 1949 and their two Additional Protocols of 1977 have developed significantly in the seventy years since the International Committee of the Red Cross ICRC first published its Commentaries on these important humanitarian treaties To promote a better understanding of and respect for this body of law the ICRC commissioned a comprehensive update of its original Commentaries of which this is the third volume The Third Convention relative to the treatment of prisoners of war and their protections takes into account developments in the law and practice in the past seven decades to provide up to date interpretations of the Convention The new Commentary has been reviewed by humanitarian law practitioners and academics from around the world This new Commentary will be an essential tool for anyone involved with international humanitarian law
