Valluzzi, 2016-11-03 Brick and Block Masonry Trends Innovations and Challenges contains the lectures and regular papers presented at the 16th International Brick and Block Masonry Conference Padova Italy 26-30 June 2016 In an ever changing world in which innovations are rapidly implemented but soon surpassed the challenge for masonry the oldest and most traditional building material is that it can address the increasingly pressing requirements of quality of living safety and sustainability This abstracts volume and full paper USB device focusing on challenges innovations trends and ideas related to masonry in both research and building practice will prove to be a valuable source of information for researchers and practitioners masonry industries and building management authorities construction professionals and educators Proactive-reactive, robust scheduling and capacity planning of deconstruction projects under uncertainty Volk, Rebekka, 2017-02-08 A project planning and decision support model is developed and applied to identify and reduce risk and uncertainty in deconstruction project planning It allows calculating building inventories based on sensor information and construction standards and it computes robust project plans for different scenarios with multiple modes constrained renewable resources and locations A reactive and flexible planning element is proposed in the case of schedule infeasibility during project execution **New Approaches for Sustainable & Resilient Processes and Products of Social Housing Development in the Arabian Gulf Countries** Khaled Galal Ahmed, Mohamed H. Elnabawi Mahgoub, Lindita Bande, Martin Scoppa, 2023-10-16 Social housing has been a forefront research topic especially from its economic and socio cultural factors The nature of social housing in the Arabian Gulf Countries has been distinctive in its approach with usually generous areas and urban sprawl designs Recently most of these Arabian Gulf Countries have gone through profound transformation in their social and housing paradigms influenced by their sustainability adopted agendas Still scholarly documentation and analysis of the processes and products of these transformed paradigms are largely missing or at least fragmented So there is a desperate need to boost research work in this field as related to each city country in this region with largely expected mutual effects that these experiences might have on each other and on the global debate about sustainable and resilient social housing as a whole Advanced Computing Strategies for Engineering Ian F. C. Smith, Bernd Dömer, 2018-06-09 This double volume set LNAI 10863 10864 constitutes the refereed proceedings of the 25th International Workshop EG ICE 2018 held in Lausanne Switzerland in June 2018 The 58 papers presented in this volume were carefully reviewed and selected from 108 submissions The papers are organized in topical sections on Advanced Computing in Engineering Computer Supported Construction Management Life Cycle Design Support Monitoring and Control Algorithms in Engineering and BIM and Engineering Ontologies *Research for Designers* Gjoko

Muratovski,2024-12-03 To make meaningful contributions and to drive innovation designers first need to learn to ask the right questions so that they can identify what the real problems are They also need to learn how to conduct research to resolve these problems Research for Designers is a guide to this new evidence based creative process This seminal bestselling book by Gjoko Muratovski is unique in the way it bridges academia and industry as well as research and practice The book also expands the notion of what design is and what it can be in the 21st century In this fresh newly updated third edition you will find Updated content with reflections by leading industry experts and researchers New cutting edge content on quantitative research user experience research corporate identity design A brand new set of expert interviews by high profile designers and design leaders A seminal essay by the legendary industrial designer Dieter Rams whose design philosophy continues to inspire the design world Even more real world cases Incorporating interviews with design experts from across the globe Research for Designers is an essential guide for anyone practicing design or doing research in design engaging in design studies or looking to develop their research skills
