Popular Mechanics Magazine, 1928 *Psychic Development: Sight Beyond Sight Using Clairvoyance Safely* Carin Weatherly, 2012-12-20 The perception that we have of clairvoyance may be from the movies, which tends to sensationalize everything, but when *Psychic Development: Sight Beyond Sight Using Clairvoyance Safely* is read, we get a more realistic picture on the entire process. Through the author's eyes, we learn not only what clairvoyance is, but we also get the opportunity to get an insight into the process of this ancient art along with the benefits that come from such a thing. We are also exposed to some of the dangers that can happen if it is not practiced properly. As topics like this become more prevalent, it is an apt time for a book like this to be available for those seeking more knowledge, either for personal or scholastic use. This form of extra-sensory perception is something of a mystery, and the scientific community does not support the validity of the practice. Currently, this book is one of the best ways to get a true meaning of what this sight beyond sight is and how it relates to the world that we live in today, that is driven by science and technology, and not spiritual practices of this nature. It does make a great read.
