## **Beef Cattle Production Systems Modular Texts Series:**

*Beef Cattle Production Systems* Andy D. Herring, 2014-10-24 This textbook provides an integrated view of beef cattle production with a systems based approach discussing the interrelationships of a broad range of aspects with the overall goal of optimising cattle production. This book provides the background to allow cattle producers to match their production environments with genetic management and marketing opportunities for sustainable beef production globally. This logic and resulting considerations can then be tailored to address specific regional challenges and opportunities worldwide.

Considerations and examples for extreme situations will be provided such as very small herds very large herds communal group situations and minimal artificial input systems. *Goat Meat Production and Quality* Osman Mahgoub, Isam T. Kadim and Edward Webb, 2011 This book focuses on the most important areas of goat meat production. It is divided into 15 chapters discussing the role of genetics breeding reproduction and nutrition in producing good quality profitable goat meat. The mineral amino acid and fatty acid composition of goat meat is also addressed along with a discussion of its nutritive value aimed at highlighting its health benefits over other red meats. Specific topics are as follows: overview of the global goat meat sector; goat meat production systems; carcass traits of hardy tropical goats; genetics and breeding of meat goats; reproductive efficiency for increased meat production in goats; nutrition of the meat goat; growth development and growth manipulation in goats; role of objective and subjective evaluation in the production and marketing of goats for meat tissue distribution in the goat carcass; influences of diets on fatty acid composition of edible tissues of meat goat; mineral composition of goat meat; linear body measurements and carcass characteristics of goats; nutritive value and quality characteristics of goat meat; effect of early nutrition on carcass and meat quality of young goats under milk production systems; and effects of feeding system and diet on the body lipid composition of young goats.

*The Animal Trade* Clive JC Phillips, 2015-09-14 The trade in live and dead animals and animal parts is a significant aspect of the global economy but economic considerations are inevitably at odds with optimal animal welfare. Providing a snapshot of the current situation this book discusses the background to modern international trade welfare and the environmental economic and cultural issues. Covering farm zoo and sport animals as well as the pet industry the author draws together the competing interests and issues involved. Critically examining the overall ethics of the current situation and future of animal trade he considers it within the context of food security climate change cultural sensitivities and consumer opinion.
