# Anticipation Guide

Making predictions while you read helps you make sense of the text—plus, it's fun when your prediction turns out to be correct! Use the chart below to help you anticipate and reflect on the action and themes of *Twelfth Night*.

**Directions:** Before you read the play, complete the first column in the chart below, under "Before." Based on the character list, photos, and pre-reading class discussion, write an **A** if you agree with the statement or a **D** if you disagree. Halfway through the play, complete the second column, under "During." Have your predictions changed? Finally, complete the last column when you finish reading. How did your predictions change?

Teaching Science Through Trade Books Christine Anne Royce, Karen Rohrich Ansberry, Emily Rachel Morgan, 2012 If you like the popular Teaching Science Through Trade Books columns in NSTA's journal Science and Children or if you've become enamored of the award winning Picture Perfect Science Lessons series you'll love this new collection. It's based on the same time saving concept. By using children's books to pique students' interest you can combine science teaching with reading instruction in an engaging and effective way.

**Teaching Integrated Reading Strategies in the Middle School Library Media Center** Kathleen M. Alley, 2008-06-30 Drawing on the success of the popular elementary level book Teaching Reading Strategies in the School Library Walker and Shaw Libraries Unlimited 2004 this title will provide library media specialists with a resource to help integrate research based reading strategies into the middle school library curriculum as part of the library lesson. The strategies discussed are those commonly used by teachers in the classroom and are easily adapted to use in the library media center allowing library teachers to support school wide reading initiatives through instruction while sharing appreciation of literature. Reading strategies are incorporated in a chapter format explaining the strategy and benefits of integration as well as offering resources a review of the relevant research methods and a clear step by step approach to instruction. Chapters share general knowledge about reading instruction and illustrate how media specialists can incorporate specific examples including reproducible items and graphic organizers. The overall outline of the book parallels the usual reading instructional pattern of strategies to use before during and after reading Grades 6-8.

Just for Boys Laurie Brownlee, 2013

Prereading Activities for Content Area Reading and Learning David W. Moore, John E. Readence, Robert J. Rickelman, 1982 Based on the premise that what students know before they read an assignment will strongly influence what they learn by reading that assignment this booklet provides strategies that teachers can use to evoke and enhance students' background knowledge in relation to content area reading. Following a foreword and preface the first major section of the booklet discusses readiness to read in the content areas including content and word knowledge motivation and attention. The second section provides guidelines for asking and answering questions before reading. The third section contains information on forecasting a passage while the fourth section discusses preteaching content vocabulary. Previewing graphically represented information is discussed in the fifth section. The sixth and final section covers guidelines for selecting prereading activities keeping in mind the characteristics of the learners and materials and the expected learning goals.
