The range of concerns the variety of approaches and their tendency to converge in some areas or diverge in others not always in the right directions are emphatically demonstrated by these essays. There is material here of enormous interest for scholars of comparative law and economic regulation. And significantly the presentation of essays from legal, financial and regulatory viewpoints demonstrates the growing practical as well as theoretical utility of interdisciplinary work in this area. Professors Ali and Gregoriou are to be warmly congratulated for their skill and initiative in assembling an important publication as well as for their own contributions to interdisciplinary scholarship. R P Austin BA LLM Sydney DPhil, Oxon, Supreme Court of New South Wales. This very international collection emphasizes the economic line of descent while including legal and socio legal contributions. It fills a very important gap in our empirical knowledge of corporate governance.
