Acrostic For Respect:

What's It Like to Be Married to Me? Linda Dillow, 2011-02-01 What's It Like to Be Married to Me is about knowing the difference between having a desire for a better marriage and setting the goal of a better marriage as readers look in the mirror to see how they can change. Bestselling author Linda Dillow understands that most women want more from their marriage but don't know how to get it. In What's It Like to Be Married to Me Dillow challenges readers to ask the riskiest questions: What is it like to be married to me? What is it like to make love with me? Why do I want to stay mad at you? Extremely intimate and honest, What's It Like to Be Married to Me is not a book about marriage at all. It is a book about how to live out marriage day by day and year by year and watch who you become as a wife impact the intimacy in your marriage.

Respecting Others Greta Barclay Lipson, 2008-09-01 Promote sensitivity and civilized behavior in children with this fun-filled packet. Many types of etiquette but specifically respecting others are covered in poems, writing projects, coloring pages, role plays, and many more pleasing activities.

Teaching Children Responsible Behavior Sandy Hagenbach, 2011 Physical education class is a great setting for teaching children social skills and Teaching Children Responsible Behavior: A Complete Toolkit is an easy-to-use resource to impart those skills to elementary school-aged children. Teaching Children Responsible Behavior will help kids learn that their choices and actions have consequences, acquire social skills to help them achieve their potential, and discover how to show respect, challenge themselves, and be good friends and teammates as they work toward common goals. This book and CD-ROM package created by veteran teacher Sandy Hagenbach defines three levels for teaching responsible behavior and provides unit plans and tools to bring those lessons to life. This program is based on Don Hellison's levels of responsibility but is adapted to work specifically with younger children. The levels focus on respect, challenge, and teamwork, and those concepts are taught and reinforced through several resources: children's stories that introduce and reinforce the three key concepts; ready-to-use activities that get kids moving and thinking; sample block plans that show how you might use the resources; a CD-ROM with resources you can use to supplement your class activities as you implement all three levels; the illustrated children's stories in PDF and PowerPoint format; articles that explore physical activity and behavior issues with follow-up questions; letters to parents about the focus and concepts of each unit; resources for guest teachers; worksheets and activities that can be used as homework or informal assessments; and posters that reinforce each unit's theme and concept and generate discussion about respect, challenge, and teamwork. Part I of the book explores the issues surrounding teaching responsible behavior, how to create a positive environment, and how to assess student progress as well as your own. Part II lays out the unit plans for the three key areas of responsible behavior. Each unit contains a children's story that you can use to introduce a level: Respect, Challenge, or Teamwork to your students. Each story uses a physical activity setting and is written specifically for physical education teachers as a tool to help them reach their learners. Each unit closes with a list of NASPE standards and sample performance outcomes that the unit addresses as well.

as child friendly complementary I can statements The book and CD ROM package is set up as a toolkit to allow you to use all the units or choose the units that fit best with your program Teaching Children Responsible Behavior is a flexible package that will help you better manage your classes increase students time on task shape positive behavior among your students and help them make responsible choices in and out of the classroom Use it to create a culture of respect in your classroom
