The Oxford Handbook of the Writings of the Hebrew Bible Donn F. Morgan, 2019 This handbook provides an important resource for the serious study of the Writings of the Hebrew Bible. It addresses historical and literary contexts as well as its roles as scripture and canon in Judaism and Christianity. The volume provides creative presentations of the messages and import of the books and the canonical division as a whole.

Greek Epitaphic Poetry Richard Hunter, 2022-01-13 The first accessible modern commentary on a selection of Greek inscribed epitaphs from c 600 BC until late antiquity.

New Idioms Within Old Eric D. Reymond, 2011 Reymond biblical Hebrew Yale U is interested in the poetry of the post biblical era when the idiom and language inherited from the Bible still influenced writers but were being altered and changed by them. Looking at the seven non Masoretic poems preserved in the Dead Sea Scroll he identifies their characteristics especially the linguistic and literary idioms and structures that might reveal a common poetic strategy or underlying theology. In many cases phrases with the same wording have been placed in contexts that significantly change their meaning and significance. These variations represent not only the flexibility of Scripture he says but the creative and poetic imagination of Second Temple Hebrew writers to express new ideas while affirming the relevance and truth of the Scripture. The Theory and Practice of Christian Psychology in Europe Nicolene L. Joubert, 2022-12-01 A view of human nature generally undergirds approaches to mental health and flourishing. Spirituality is accepted by most cultures as an integral part of human nature and cannot be ignored when attempting to take care of our suffering and promoting flourishing. The onset of the COVID 19 pandemic in December 2019 caused worldwide shock and ripped at the very fabric of society. Everybody was affected by the threat of the illness and loss of lives. The disastrous economic impact is still felt in many parts of the world. In this book a combination of Christian faith and scientific knowledge is presented as an answer to the question of human suffering. Individual and collective suffering are addressed by various articles and therapeutic models. The book further serves to deepen understanding of the value of spiritual knowledge and insight in therapy for both Christian and non Christian therapists in respect of both theory and practice. The content covers a wide range of topics including collective suffering, individual suffering due to abuse, elements of Christian psychotherapy, the role of conscience and faith in healing, spiritual maturity and a Christian view of identity in a digital age.
