Free Zone Scientology Aled Thomas, 2021-04-08 In this novel academic study Aled Thomas analyses modern issues surrounding boundaries and fluidity in contemporary Scientology By using the Scientologist practice of auditing as a case study this book explores the ways in which new types of Scientologies can emerge The notion of Free Zone Scientology is characterised by its horizontal structure in contrast to the vertical hierarchy of the institutional Church of Scientology With this in mind Thomas explores the Free Zone as an example of a developing and fluid religion directly addressing questions concerning authority leadership and material objects This book by maintaining a double focus on the top down hierarchy of the Church of Scientology and the horizontal fluid nature of the Free Zone breaks away from previous research on new religions which have tended to focus either on new religions as indices of broad social processes such as secularization or globalization or as exemplars of exotic processes such as charismatic authority and brainwashing Instead Thomas adopts auditing as a method of providing an in depth case study of a new religion in transition and transformation in the 21st century This opens the study of contemporary and new religions to a series of new questions around hybrid religions sacred and secular and acts as a framework for the study of similar movements formed in recent decades

Security Assessment in Vehicular Networks Suguo Du, Haojin Zhu, 2013-10-29 This book presents several novel approaches to model the interaction between the attacker and the defender and assess the security of Vehicular Ad Hoc Networks VANETs The first security assessment approach is based on the attack tree security assessment model which leverages tree based methods to analyze the risk of the system and identify the possible attacking strategies the adversaries may launch To further capture the interaction between the attacker and the defender the authors propose to utilize the attack defense tree model to express the potential countermeasures which could mitigate the system By considering rational participants that aim to maximize their payoff function the brief describes a game theoretic analysis approach to investigate the possible strategies that the security administrator and the attacker could adopt A phased attack defense game allows the reader to model the interactions between the attacker and defender for VANET security assessment The brief offers a variety of methods for assessing the security of wireless networks Professionals and researchers working on the defense of VANETs will find this material valuable

Variation in Time and Space Anna Čermáková, Markéta Malá, 2020-12-07 Variation in Time and Space Observing the World through Corpora is a collection of articles that address the theme of linguistic variation in English in its broadest sense Current research in English language presented in the book explores a fascinating number of topics whose unifying element is the corpus linguistic methodology Part I of this volume Meaning in Time and Space introduces the two dimensions of variation time and space relating them to the negotiation of meaning in discourse and questions of intertextuality Part II Variation in Time approaches the English language from a diachronic point of view the time periods covered vary considerably ranging from 16th century up to present day so do the genres explored Part III Variation in Space focuses on

global varieties of English and includes a contrastive point of view The range of topics is again broad from specific lexico grammatical structures to the variation in academic English combining the regional and genre dimensions of variation This is a timely volume that shows the breadth and depth in current corpus based research of English **Number Theory and Combinatorics** Bruce M.
