America Transformed Globalization Inequality And Power:

America Transformed Gary J. Hytrek, Kristine M. Zentgraf, 2008 Globalization the interconnection of the world culturally socially politically and economically has generated intense theoretical and practical concerns Is globalization inevitable What are the effects of globalization on social structures and individual perceptions What is the effect of globalization on societal level inequality America Transformed Globalization Inequality and Power examines these questions by analyzing the links among global processes and shifting patterns of stratification inequality and social mobility in the United States While many texts separate discussions of macro and micro level processes when examining globalization this book skillfully integrates general macro level processes with specific reference to the micro level effects of globalization in the U S Exploring the critical dimensions of inequality class gender and immigration America Transformed situates the U S experience within the broader global context and fleshes out the mechanism through which global processes affect social stratification By examining the social construction of globalization the authors identify the key policy challenges of globalization and some of the innovative community based responses to social inequality America Transformed provides powerful insights into the contested dialectical relationship between global and local forces how globalization shapes stratification and inequality in the U S and how local communities attempt to mediate those changes

The Impact of Globalization on the United States

Michelle Bertho, Beverly Crawford, Edward A. Fogarty, 2008-09-30 Over the past decade a virtual cottage industry has arisen to produce books and articles describing the nature origins and impact of globalization Largely and surprisingly absent from this literature however has been extensive discussion of how globalization is affecting the United States itself Indeed it is rarely even acknowledged that while the United States may be providing a crucial impetus to globalization the process of globalization once set in motion has become a force unto itself Thus globalization has its own logic and demands that are having a profound impact within the United States often in ways that are unanticipated This set offers the first in depth systematic effort at assessing the United States not as a globalizing force but as a nation being transformed by globalization Among the topics studied are globalization in the form of intensified international linkages globalization as a universalizing and or Westernizing force globalization in the form of liberalized flows of trade capital and labor and globalization as a force for the creation of transnational and superterritorial entities and allegiances These volumes examine how each of these facets of globalization affects American government law business economy society and culture

America after Empire

Berch Berberoglu, 2022-11-09 After the end of America s longest 20 year war in Afghanistan and Iraq that cost more than 6 trillion and nearly half a million lives what does the future hold for America and the American people in the 21st century In this timely and important book Berch Berberoglu provides an eye opening account of the history of the American Empire from its inception to the present with prospects for its future Examining the worldwide expansion of the American Empire over the course of its turbulent history in great detail Berberoglu assesses America s imperial legacy in a sober way

highlighting its failure to come to terms with the enormous cost of this adventure in imperial overreach But Berberoglu sees light at the end of the long dark tunnel when the American people will awaken and lead the way to a new America after empire in the coming decades of the 21st century *Contemporary Readings in Social Problems* Anna Leon-Guerrero, 2008-11-21 Companion reader to Anna Leon Guerrero's *Social Problems* 2nd Edition *Beyond the Global Capitalist Crisis* Professor Berch Berberoglu, 2013-01-28 The deep economic recession that has occurred in all major sectors of the U S and global economy is a manifestation of the underlying contradictions of the capitalist system that has resulted in the accumulation of vast fortunes on one side and impoverishment debt and destitution on the other In short the crisis of global capitalism is the result of the immense disparities in wealth and income and a consequent widening gap between capital and labor This ground breaking book brings together a team of experts on the contemporary global capitalist political economy who are able to shed light on the inner workings of global capitalism and the capitalist globalization process that has led to the growth and development of capitalism from the national to the global level with all its fundamental internal dynamics and contradictions operating on a world scale It will make an important contribution to understanding the underlying causes of the current global economic crisis and show the way out of this crisis by way of a powerful critique of the global capitalist system that will ultimately go through a major economic political and social transformation Analysis of the global capitalist crisis raises questions regarding the process of capitalist globalization especially now that neoliberal economic policies have failed Does this signal the end of capitalist globalization and the collapse of the global capitalist system This book will take up these questions and entertain the possibility of a new beginning in the global political economy through an analysis of the next period of post capitalist developments worldwide that may set the stage for the rise of socialism across the globe *Political Sociology in a Global Era* Berch Berberoglu, 2015-11-17 *Political Sociology in a Global Era* provides a critical analysis of the origins nature development and transformation of the state and society historically and today examining the class nature and social basis of politics and the state in different societal settings The book emphasizes the centrality of class relations in explaining political power and the role of the state in class divided societies by providing powerful theoretical and empirical analyses of themes in political sociology in an era of globalization It examines in detail the major political issues and events of our time and makes them relevant to the study of power and politics today Some of the features of this text include Introduces a global political sociology emphasizing the dynamics of power relations Provides a critical analysis of the role of politics and the state within the world historical process Describes classical and contemporary theories of politics and the state Explains the origins and development of the state discussing the nature of the state its class basis and contradictions in different types of societies Considers the dynamics of the capitalist state and traces its development in Europe and the United States from the 18th century to the present Details the role of the advanced capitalist state in the global political economy at the current advanced stage of late capitalism Discusses the social movements that

have been actively struggling against the capitalist state from earlier times to the present including the Arab Spring focusing on recent developments in both advanced capitalist and less developed capitalist societies where mobilization of the masses has led to struggles against the capitalist state on a global scale Offers an original analysis of global capitalism and places it in the context of the current crisis of the global capitalist system The Impact of Globalization on the United States: Business and economics Michelle Bertho, Beverly Crawford, Edward A. Fogarty, 2008 This is the first work to systematically demystify the impact of globalization on the United States and American society in particular turning the tables on the more familiar idea of America as the nefarious globalizer of the developing world The Global Capitalist Crisis and Its Aftermath Berch Berberoglu, 2016-12-05 Written by a team of experts on the contemporary global capitalist political economy who are able to shed light on the inner workings of global capitalism and the capitalist globalization process that has led to the growth and development of capitalism from the national to the global level this groundbreaking volume provides critical analyses of the causes and consequences of the Great Recession of 2008 2009 Through a careful examination of the origin development and aftermath of the catastrophic economic crisis from which the world is still trying to recover editor Berch Berberoglu and his colleagues demonstrate that those most responsible for the economic collapse are the ones least affected by its devastating impact felt most severely by working people around the world Ultimately this book argues that it is only through the systematic restructuring of the world economy by the working class that society will be able to prevent the boom and bust cycle of global capitalist crises and usher in a more egalitarian socialist economy and society International Review of Modern Sociology , 2008 **Globalization in the 21st Century** Berch Berberoglu, 2010-03-15 This book examines the development and transformation of global capitalism in the late 20th and early 21st century It analyzes the dynamics and contradictions of the global political economy through a comparative historical approach based on class analysis After providing a critical overview of neoliberal capitalist globalization over the past three decades the book examines the emergence of new forces on the global scene and discusses the prospects of change in the global economy in a multi polar direction in the decades ahead The book concludes by focusing on the mass movements that are playing a central role in bringing about the transformation of global capitalism Program of the Annual Meeting - American Historical Association American Historical Association, 2007 Some programs include also the programs of societies meeting concurrently with the association **Program of the ...
