

# AMERICAN LITERATURE STUDY TIPS AND ACTIVITIES FOR GEORGIA MILESTONES (April 27, 28, 29)

Included in this study guide packet are information about the EOC, tips for test taking, terms that students should be familiar with, and activities to help students practice for various types of questions. Feel free to access other study aids, such as, USA TEST Prep, GA DOE website with a Study Resource Guide and other websites with study questions.

## ITEM TYPES

The American Literature and Composition EOC assessment consists of selected-response, technology-enhanced, constructed-response, extended constructed-response, and extended writing-response items.

A **selected-response** item, sometimes called a multiple-choice item, is a question, problem, or statement that is followed by four answer choices. These questions are worth one point.

A **technology-enhanced** item has two parts. You will be asked to answer the first part of the question, and then you will answer the second part of the question based on how you answered the first part. These questions are worth two points. Partial credit may be awarded if the first response is correct but the second is not.

A **constructed-response** item asks a question, and you provide a response that you construct on your own. These questions are worth two points. Partial credit may be awarded if part of the response is correct.

An **extended constructed-response** item is a specific type of constructed-response item that requires a longer, more detailed response. These items are worth four points. Partial credit may be awarded.

For American Literature and Composition, you will respond to a narrative prompt based on a passage you have read, and the response will be scored according to the rubric for the prompt. Partial credit may be awarded.

The **extended writing-response** item is located in section one of the ELA EOC. Students are expected to produce an argument or develop an informative or explanatory response based on information read in two passages. There are three selected-response items and one two-point constructed-response item to help focus the students' thoughts on the passages and to prepare them for the actual writing task. The extended writing-response task is scored on a 7-point scale: 4 points for idea development, organization, and coherence, and 3 points for language usage and conventions.

## Strategies for Answering Constructed-Response Items

- Read the question or prompt carefully.
- Think about what the question is asking you to do.
- Go back to the passage or passages and find details, examples, or reasons that help support and explain your response.
- Reread your response and be sure you have answered all parts of the question.
- Be sure that the evidence you have chosen from the text supports your answer.
- Your response will be scored based on the accuracy of your response and how well you have supported your answer with details and other evidence.
- Extended-response items will also evaluate your writing. Your score will be based on criteria such as organization, clarity, transitions, precise language, formal style, objective tone, sentence structure, grammar, punctuation, and usage.
