## Against A Dark Background:

**Against a Dark Background** Iain M. Banks, 2009-07-01 From science fiction master Iain M Banks comes a standalone adventure of one woman on the run in an isolated galaxy Sharrows was once the leader of a personality attuned combat team in one of the sporadic little commercial wars in the civilization based around the planet Golter. Now she is hunted by the Huhsz a religious cult which believes that she is the last obstacle before the faith's apotheosis and her only hope of escape is to find the last of the apocalyptically powerful Lazy Guns before the Huhsz find her. Her journey through the exotic Golterian system is a destructive and savage odyssey into her past and that of her family and of the system itself. [Against a Dark Background](#) Iain Banks, 1994 Once a warrior spy and combat leader on the planet Golter Sharrows lives in semi retirement but suddenly finds herself the target of the Huhsz a religious cult and realizes that she has to find and reform her old team if she has any hope of survival. A singular fatality has ruled the destiny of nearly all the most famous of Leonardo da Vinci's works. Two of the three most important were never completed obstacles having arisen during his life time which obliged him to leave them unfinished namely the Sforza Monument and the Wall painting of the Battle of Anghiari while the third the picture of the Last Supper at Milan has suffered irreparable injury from decay and the repeated restorations to which it was recklessly subjected during the XVIIth and XVIIIth centuries. Nevertheless no other picture of the Renaissance has become so wellknown and popular through copies of every description Vasari says and rightly in his *Life of Leonardo* that he laboured much more by his word than in fact or by deed and the biographer evidently had in his mind the numerous works in Manuscript which have been preserved to this day. To us now it seems almost inexplicable that these valuable and interesting original texts should have remained so long unpublished and indeed forgotten. It is certain that during the XVIth and XVIIth centuries their exceptional value was highly appreciated. This is proved not merely by the prices which they commanded but also by the exceptional interest which has been attached to the change of ownership of merely a few pages of Manuscript I Prolegomena and General Introduction to the Book on Painting II Linear Perspective III Six books on Light and Shade IV Perspective of Disappearance V Theory of colours VI Perspective of Colour and Aerial Perspective VII On the Proportions and on the Movements of the Human Figure VIII Botany for Painters and Elements of Landscape Painting IX The Practice of Painting X Studies and Sketches for Pictures and Decorations XI The notes on Sculpture XII Architectural Designs XIII Theoretical
