Mountain Bikes on Public Lands Kit Keller,1990 *Historical Dictionary of Cycling* Jeroen Heijmans,Bill Mallon,2011-09-09 The nearly 150 year old sport of cycling had its first competition in France in 1868 Soon afterward the need arose for purpose built cycling tracks because of poor road conditions at the time Racing on blocked off pieces of street

or grass soon evolved into racing on special tracks called velodromes. This development marked the split into what are still the two main forms of cycling competition: road racing and track racing. Initially, track cycling was more popular in terms of public attention and money to be earned by racers, but this gradually changed in favor of road racing, which has been the most popular form of cycling since at least the end of World War II. **The Historical Dictionary of Cycling** takes a closer look at the sport as well as discussing the use of bicycles as a means of fitness, touring, and commuting. This is done through a chronology, an introductory essay, appendixes, photos, a bibliography, and over 500 cross-referenced dictionary entries on cycling's two main disciplines, road and track, as well as brief overviews of the other forms of cycling. This book is an excellent access point for students, researchers, and anyone wanting to know more about cycling. **Whitaker's Books in Print**, 1998
