Cause Effect Pairs in Machine Learning

Isabelle Guyon,Alexander Statnikov,Berna Bakir Batu,2019-10-22 This book presents ground breaking advances in the domain of causal structure learning The problem of distinguishing cause from effect Does altitude cause a change in atmospheric pressure or vice versa is here cast as a binary classification problem to be tackled by machine learning algorithms Based on the results of the ChaLearn Cause Effect Pairs Challenge this book reveals that the joint distribution of two variables can be scrutinized by machine learning algorithms to reveal the possible existence of a causal mechanism in the sense that the values of one variable may have been generated from the values of the other This book provides both tutorial material on the state of the art on cause effect pairs and exposes the reader to more advanced material with a collection of selected papers Supplemental material includes videos slides and code which can be found on the workshop
