

A silhouette of a person wearing a long, dark coat, standing with their back to the camera. They are positioned in the center-right of the frame, looking out at a vast, dark space filled with numerous small, bright white dots, resembling a starry night sky or a distant galaxy. The overall color palette is dark blue and black, with the text providing a sharp contrast.

Adventures In Consciousness Adventures In Consciousness:

Adventures in Consciousness Jane Roberts, 2020-01-30 This book is an attempt by Jane Roberts to expand our concept of consciousness to create a new psychology She accepts as normal the existence of precognitive dreams out of body experiences revelatory information alterations of consciousness peak experiences trance mediumship and other psychological and psychic events possible in human behavior She presents a framework in which these experiences can be viewed as valid psychological experiences themselves neither good nor bad but expressions of the personality as it struggles to come to grips with its spiritual and creature nature She utilizes different levels of awareness to examine the nature of the psyche and its reality She starts from a conscious state and from that stage she programs herself to journey to other portions of the personality and view reality from their viewpoint and with their own kinds of perception To that end she examines her own trance material and scrutinizes Seth's reality as it appears in her experience and in his behavior and writings In

ADVENTURES OF CONSCIOUSNESS Jane Roberts creates an alternate map of reality with a new diagram of the psyche

Adventures in Consciousness Jane Roberts, 1978 In this new edition of her 1978 *Adventures In Consciousness* Roberts sets out to account for an entire range of nonscientific phenomena events for which science has found no official proof What emerges is Roberts theory of Aspect Psychology nothing less than a revolutionary view of the human personality Taking up where Seth left off *Adventures In Consciousness* encompasses and explains the full incredibly versatile multi dimensional range of the normal human psyche *Adventures in Consciousness* George A.
