Reese, James Vernon Eidson, 1999-05-24 Although the construction industry employs only five percent of the nation's work force it suffers 20 percent of the nation's occupational fatalities and 12 percent of all U.S. injuries. Because of this the Occupational Safety and Health Administration (OSHA) has consolidated their construction standards compliance assistance cooperative programs and technical services to form the Directorate of Construction. Construction sites and operations have become the prime targets for the Directorate of Construction which has greatly increased its number of inspections, citations and penalties.
