**Global Yorùbá** Toyin Falola, 2024-11-19 In Global Yorùbá renowned scholar Toyin Falola covers the history, people, traditions, environment, religion, spirituality, cosmology, culture, and philosophy of one of Africa's largest cultural groups, the Yorùbá. While considering the people's relationship with their immediate and distant neighbors, Falola examines how the Yorùbá people have adapted to their environment and tapped it to re-invent their civilization. The study shape their culture and traditions and inform their socioeconomic relations with their neighbors. These interactions have guided the Yorùbá philosophy that developed over time, expressing their conviction regarding society's evolution and the place that humans occupy within it. This web of knowledge can present a more coherent account than any other text yet produced regarding Yorùbá civilization. This volume demonstrates how global dynamics have been adopted in the creation of a Yorùbá community across different times and spaces.

**Families and Religion** Christel Gärtner, Linda Hennig, Olaf Müller, 2025-03-20 This comparative study examines the transmission of religion in families in Germany, Italy, Hungary, Finland, and Canada. The authors rely on the widely shared argument that religious change can primarily be understood as an intergenerational process. Based on a mixed methods design, the book investigates the question of how, when, exactly, and under what conditions the following generations become less religious than the previous ones. From the perspective of familial and historical generations, the authors examine the significance of religious socialization for the transmission of non-religious worldviews, affiliation, practice, and identity. According to a central finding, religious change takes place primarily in the phase of adolescence against the background of the respective social context.
