Worldviews and Christian Education W. Shipton,2013-08-14 Christ's instruction to his disciples was to witness to others about his plan of salvation This may be relatively easy when it involves our contemporaries and peers But when we are working with people from a different cultural background or belief system it can be difficult or seemingly impossible In Worldviews and Christian Education editors W A Shipton E Coetzee and R Takeuchi have brought together works by experts in cross cultural religious education The authors and editors have a wealth of personal experience in presenting the gospel to individuals with various worldviews that differ greatly from those held by Christians who take the Bible as authoritative They focus on the beliefs and issues associated with witnessing to seekers for truth coming from backgrounds as diverse as animism Buddhism Confucianism Hinduism Islam Marxism Taoism and postmodernism The emphasis is on educational settings but the sensitivities highlighted and lessons learned are applicable to situations outside this area Leaders pastors teachers and laypersons will find valuable conceptual models practical ideas and bibliographic references presented here Worldviews and Christian Education challenges all readers to be faithful to the biblical worldview and to approach everyone with sensitivity so that like the apostle Paul they may reach some The Meaty Truth Shushana Castle,Amy-Lee

Goodman,2014-11-11 The Meaty Truth is an eye opening look at the massive problems caused by the American population's food supply Water meat and milk and other dairy products are filled with toxins antibiotics untested growth hormones ammonia and animal pus and manure The current conditions of the food production industry must drastically improve and until they do it is absolutely vital to monitor what you eat Castle and Goodman take a hard hitting look at what America is putting into its food the negative effects this has on the world and the best ways to make healthy informed decisions about eating As the antibiotic age ends the rise of pandemic diseases is approaching Approximately half of the illnesses that claim American lives today are related to what we eat and our health care system is focused on treating the sick not preventing illnesses from occurring To fix our health problems to continue feeding the world's ever growing population and to save our planet from ecological destruction we can no longer avoid making changes to how American meat and dairy are produced This guide is easy to read applicable to anyone's lifestyle and impossible to put down Global Black Narratives for the Classroom: Africa, the Americas and the Caribbean BLAM UK,2023-12-06 Rather than reserving the teaching of Black history to Black history month Black narratives deserve to be seen and integrated into every aspect of the school curriculum A unique yet practical resource Global Black Narratives for the Classroom addresses this issue by providing primary teachers

with a global outline of Black history culture and life within the framework of the UK's National Curriculum. Each topic explored in this essential book provides teachers and teaching assistants with historical, geographic, and cultural context to build confidence when planning and teaching. Full lesson plans and printable worksheets are incorporated into each topic alongside tips to build future lessons in line with the themes explored. Volume II of this book explores the following parts: Part 1 guides teachers through planning and delivering lessons focused on Africa. Pupils will benefit from developing a diverse and accurate understanding of the changing nature of Africa throughout history, linking the continent's social history with its geographical features. Part 2, The Caribbean, builds upon the lesson plans of Part 1 to further highlight the interconnectedness of diaspora cultures in influencing the musical, visual, and religious practices of the Caribbean and Central America. Part 3 begins by addressing the incorrect assumption that the history of Black people in the Americas begins and ends with plantation slavery. Instead, this section proposes a range of in-depth lesson plans on the diverse histories, cultures, and experiences of Black people within the United States. Created by BLAM UK, this highly informative yet practical resource is an essential read for any teacher, teaching assistant, or senior leader who wishes to diversify their curriculum and address issues of Black representation within their school. It is published in two practical and comprehensive volumes. Volume 1 covers Britain and Europe, whilst Volume 2 includes Africa, the Americas, and the Caribbean. Each volume can be used individually for teaching, but when used together, they provide a truly global perspective on Black history and culture.
