Brookings Papers On Economic Activity Spring 2009:

Brookings Papers on Economic Activity David H. Romer, Justin Wolfers, 2009 The Brookings Papers on Economic Activity long one of Brookings's signature publications has new leadership The two incoming editors have both made outstanding contributions to economic research and the communication of economic ideas to a broad audience They will ensure that BPEA continues to be a central meeting place for leading scholars analyzing important economic problems The new editorial team will retain BPEA's focus on empirical research of current issues in macroeconomics and economic policy emphasizing real world events and institutions The journal will uphold its tradition of Brookings Papers on Economic Activity: Spring 2009 David H. Romer, Justin Wolfers, 2010-10-01 Brookings Papers on Economic Activity BPEA provides academic and business economists government officials and members of the financial and business communities with timely research on current economic issues Contents Editors Summary The Financial Crisis An Inside View By Phillip Swagel Understanding Inflation Indexed Bond Markets By John Y Campbell Robert J Shiller and Luis M Viceira Do Tax Cuts Starve the Beast The Effect of Tax Changes on Government Spending By Christina D Romer and David H Romer Causes and Consequences of the Oil Shock of 2007-08 By James D Hamilton Why Doesn't Capitalism Flow to Poor Countries By Rafael Di Tella and Robert MacCulloch reviewing a previous edition or volume **Nominations of Karen Dynan and Richard G. Romer, Justin Wolfers, 2010-07-01 Brookings Papers on Economic Activity BPEA provides academic and business economists government officials and members of the financial and business communities with timely research on current economic issues Contents Editors Summary Heeding Daedalus Optimal Inflation and the Zero Lower Bound By John C Williams The Age of Reason Financial Decisions over the Life Cycle and Implications for Regulation By Sumit Agarwal John C Driscoll and Xavier Gabaix Interpreting the Unconventional U S Monetary Policy of 2007-09 By Ricardo Reis By How Much Does GDP Rise If the Government Buys More Output By Robert E Hall When the North Last Headed South Revisiting the 1930s By Carmen M Reinhart and Vincent R Reinhart Handbook of International Economics Gita Gopinath, Elhanan Helpman, Kenneth Rogoff, 2014-02-22 What conclusions can be drawn from recent advances in international trade and international macroeconomics New datasets theoretical models and empirical studies have resulted in fresh questions about the world trade and payment system These chapters six on trade and six on international macroeconomics reveal the richness that researchers have uncovered in recent years The chapters on foreign trade present among other subjects new integrated multisector analytical frameworks the use of gravity equations for the estimation of trade flows the role of domestic institutions in shaping comparative advantage and international trade agreements On international macroeconomics chapters explore the relation between exchange rates and other macroeconomic variables risk sharing allocation of capital across countries and current account dynamics and sovereign debt and financial crises By addressing new issues while

enabling deeper and sharper analyses of old issues this volume makes a significant contribution to our understanding of the global economy Systematically illuminates and interprets recent developments in research on international trade and international macroeconomics Focuses on newly developing questions and opportunities for future research Presents multiple perspectives on ways to understand the global economy

Regional Integration and Institutional Change in East Asia and the European Union Herman Voogsgeerd, Shigeru Akita, 2026-01-01 This volume addresses the drivers and mechanisms of institutional change in Europe and East Asia during times of international crisis Under what conditions and through what processes does a form of regionalism or regionalization change Why is there a different pace of development and what mechanism is responsible for institutional change Is it simply copying or are there other mechanisms at work Why do regions institutionalize and why don't others We will distinguish between regionalization and regionalism While the former is a bottom up process involving all kinds of citizens non governmental organizations and academic circles the latter is a top down activity It is the work of states public international organizations and diplomats This book focuses on both phenomena One could argue that East Asia first experienced regionalization followed by regionalism In the EU however it may be the other way around as international organizations and elites have largely driven the integration project thus far

Collapse and Revival Mr. Ayhan Kose, Mr. Marco E. Terrones, 2015-12-16 As the debates about the recent global recession and the subsequent recovery have clearly shown our understanding of these questions has been very limited This comprehensive text puts the latest global recession and ongoing recovery in perspective With the support of a companion website and DVD we have created several multimedia tools to help understand the basics

Fiscal Therapy William G. Gale, 2019-03-01 Keeping the economy strong will require addressing two distinct but related problems Steadily rising federal debt makes it harder to grow our economy boost our living standards respond to wars or recessions address social needs and maintain our role as a global leader At the same time we have let critical investments lag and left many people behind even as overall prosperity has grown In Fiscal Therapy William Gale a leading authority on how federal tax and budget policy affects the economy provides a trenchant discussion of the challenges posed by the imbalances between spending and revenue America is facing a gradual decline as debt accumulates and delay raises the costs of action But there is hope fiscal responsibility aligns with both conservative and liberal goals and citizens of all stripes can support the notion of making life better for our children and grandchildren Gale provides a plan to make the economy and nation stronger one that controls entitlement spending but preserves and enhances their anti poverty and social insurance roles increases public investments on human and physical capital and raises and reforms taxes to pay for government services in a fair and efficient way What is needed he argues is to balance today's needs against tomorrow's obligations We face significant fiscal challenges but if we are wise enough to seize our opportunities we can strengthen our economy increase opportunity reduce inequality and build better lives for our children and grandchildren We do not have to kill popular programs or starve

government Indeed one main goal of fiscal reform is to maintain the vital functions that government provides We need to act responsibly pay for the government we want and shape that government in ways that serve us best **US-China Relations**

in the Twenty-First Century Michael Tai,2015-04-24 The relationship between the United States and China will be of critical importance to the world throughout the twenty first century In the West China s rise is often portrayed as a threat and China seen in negative terms This book explores the dynamics of this crucial relationship It looks in particular at what causes an international relationship to be perceived negatively and considers what can be done to reverse this arguing that trust is a key factor It goes on to discuss US and Chinese rhetoric and behaviour in three key areas climate change finance and international security The book contends that contrary to much US rhetoric China s actions in these areas is often much more flexible and accommodating than the US position and that the Chinese are much more knowledgeable about and understanding and appreciative of the United States than vice versa *Place-based Economic Development and the New EU Cohesion Policy* Philip McCann,Attila Varga,2018-02-02 The new EU Cohesion Policy is one of the largest integrated development policies in the Western world and one of the largest of such programmes anywhere in the world The reforms to the EU Cohesion Policy contain many different elements each of which interlink in order to provide a cohesive overall framework Some of the key elements in the reforms however relate to the conditionalities employed and their effects on policy governance and the control mechanism the smart specialization approach to policy prioritization and resource allocation the underlying place based logic of the policy and the overall results orientation and evaluation emphasis of the policy In each of the areas of the EU Cohesion Policy reforms many different scholars from the fields of regional studies regional science and economic geography have played important roles in shaping the new policy and the chapters here highlight these increasing interactions between the policy and academic spheres of debate The collection of essays in this book each deal with specific aspects of these critical elements of the Cohesion Policy reforms In particular they examine some of the strengths and weaknesses of these individual elements and allowing for a better understanding of the origins and backgrounds of many of the ideas underpinning these reforms This book was previously published as a special issue of Regional Studies Global Financial Contagion Shalendra D. Sharma,2014 The United States why the trigger The Bush and Obama administration s response From the American to the European crisis The Eurozone s sovereign debt crisis Russia not an exceptional country China from crisis management to rebalancing Japan South Korea and India impact and recovery The Middle East amidst the global financial crisis The Great Recession and the world s poorest G 20 world economic governance for the post crisis world **International Journal of Political Economy** ,2009 IMF Economic Review ,2010 *Rivista Di Politica Economica* ,2009 Includes sections Rassegna delle pubblicazioni economiche and Rassegna della stampa economica periodica OECD Economic Surveys: United Kingdom 2011 OECD,2011-03-28 The 2011 edition of OECD s periodic survey of the UK economy This edition includes chapters covering supporting the recovery and rebalancing the

economy improving the functioning of the housing market reforming education in England and climate OECD Economic Surveys: United States 2012 OECD,2012-07-13 OECD s 2012 survey of the US economy examines recent economic developments policies and prospects and takes a more detailed look at labour market policies and strengthening innovation

Distortions in the Nigerian Economy Nigerian Economic Society. Annual Conference,2011 The Brookings Institution Annual Report Brookings Institution,2010 **Oil Shocks and Optimal Monetary Policy** Carlos Montoro,2010

In practice central banks have been confronted with a trade off between stabilising inflation and output when dealing with rising oil prices This contrasts with the result in the standard New Keynesian model that ensuring complete price stability is the optimal thing to do even when an oil shock leads to large output drops To reconcile this apparent contradiction this paper investigates how monetary policy should react to oil shocks in a microfounded model with staggered price setting and with oil as an input in a CES production function In particular we extend Benigno and Woodford 2005 to obtain a second order approximation to the expected utility of the representative household when the steady state is distorted and the economy is hit by oil price shocks The main result is that oil price shocks generate an endogenous trade off between inflation and output stabilisation when oil has low substitutability in production Therefore it becomes optimal for the monetary authority to stabilise partially the effects of oil shocks on inflation and some inflation is desirable We also find in contrast to Benigno and Woodford 2005 that this trade off is reduced but not eliminated when we get rid of the effects of monopolistic distortions in the steady state Moreover the size of the endogenous cost push shock generated by fluctuations in the oil price increases when oil is more difficult to substitute by other factors *OECD Employment Outlook 2012* OECD,2012-08-10 This 30th edition of the OECD Employment Outlook examines the labour market performance of OECD countries as well as the prospects in the short term
