Metanoia Adam Ellwanger, 2020-02-25 Western culture is in a moment when wholly new kinds of personal transformations are possible but authentic transformation requires both personal testimony and public recognition. In this book Adam Ellwanger takes a distinctly rhetorical approach to analyzing how the personal and the public relate to an individual's transformation and develops a new vocabulary that enables a critical assessment of the concept of authenticity. The concept of metanoia is central to this project. Charting the history of metanoia from its original use in the classical tradition to its adoption by early Christians as a term for religious conversion, Ellwanger shows that metanoia involves a change within a person that results in a truer version of him or herself. A change in character or ethos. He then applies this theory to our contemporary moment, finding that metanoia provides unique insight into modern forms of self transformation. Drawing on ancient and medieval sources including Thucydides, Plato, Paul the Apostle, and Augustine, as well as contemporary discourses of self transformation such as the public testimonies of Caitlyn Jenner and Rachel Dolezal, Ellwanger elucidates the role of language in signifying and authenticating identity. Timely and original, Ellwanger's study formulates a transhistorical theory of personal transformation that will be of interest to scholars working in social theory, philosophy, rhetoric, and the history of Christianity.

*Social Media Entertainment* Stuart Cunningham, David

Craig, 2019-02-26. Winner 2020 Outstanding Book Award given by the International Communication Association. Honorable Mention 2020 Nancy Baym Book Award given by the Association of Internet Researchers. How the transformation of social media platforms and user experience have redefined the entertainment industry. In a little over a decade, competing social media platforms including YouTube, Facebook, Twitter, Instagram, and Snapchat have given rise to a new creative industry: social media entertainment. Operating at the intersection of the entertainment and interactivity communication and content industries, social media entertainment creators have harnessed these platforms to generate new kinds of content separate from the century long model of intellectual property control in the traditional entertainment industry. Social media entertainment has expanded rapidly and the traditional entertainment industry has been forced to cede significant power and influence to content creators, their fans and subscribers. Digital platforms have created a natural market for embedded advertising, changing the worlds of marketing and communication in their wake. Combined, these factors have produced new, radically shifting demands on the entertainment industry, posing new challenges for screen regimes, media scholars, industry professionals, content creators, and audiences alike. Stuart Cunningham and David Craig chronicle the rise of social media entertainment and its impact on media consumption and production. A massive industry defining study with insight from over 100 industry insiders, *Social Media Entertainment* explores the latest transformations in the entertainment industry in this time of digital disruption.

Messy Truth Caleb Kaltenbach, 2021-08-10. From the author of *Messy Grace*, a former pastor raised by gay parents comes a compassionate playbook to help Christians, church staff, and ministry leaders create a culture

of belonging without sacrificing theological convictions. What should we do? This is a question many Christians are asking as they face shifting societal norms, conflicting opinions, and often inaccurate scriptural interpretations regarding those who identify as LGBTQ. Caleb Kaltenbach believes there's a more helpful question: What am I willing to do to keep and build influence with \_\_\_\_\_? Caleb knows our love for others is best measured by the lengths we'll go to help them. He also recognizes that people find and follow Jesus better in community than in isolation. As a child raised by three activist gay parents, Caleb experienced firsthand the outrage of some Christians. That's why he is committed to creating a sense of belonging for all people. True community can happen only when Christians are intentional in infusing their attitudes, systems, and values with grace and truth. This hopeful practical book offers tools for encouraging church involvement, strengthening personal relationships, increasing empathy, and engaging in pivotal conversations about grace and truth with our whole community. Fostering a culture of belonging is a messy process, but it holds a massive possibility for everyone involved in a growing relationship with Jesus.

Thanks for Watching Patricia G. Lange, 2019-11-15

YouTube hosts one billion visitors monthly and sees more than 400 hours of video uploaded every minute. In her award-winning book Thanks for Watching, Patricia G. Lange offers an anthropological perspective on this heavily mediated social environment by analyzing videos and the emotions that motivate sharing them. She demonstrates how core concepts from anthropology—participant observation, reciprocity, and community—apply to sociality on YouTube. Lange's book reconceptualizes and updates these concepts for video-sharing cultures. Lange draws on 152 interviews with YouTube participants at gatherings throughout the United States, content analyses of more than 300 videos, observations of interactions on and off the site, and participant observation. She documents how the introduction of monetization options impacted perceived opportunities for open sharing and creative exploration of personal and social messages. Lange's book provides new insight into patterns of digital migration, YouTube's influence on off-site interactions, and the emotional impact of losing control over images. The book also debunks traditional myths about online interaction, such as the supposed online/offline binary, the notion that anonymity always degrades public discourse, and the popular characterization of online participants as over-sharing narcissists. YouTubers' experiences illustrate fascinating hybrid forms of contemporary sociality that are neither purely mediated nor sufficient when conducted only in person. Combining intensive ethnography, analysis of video artifacts, and Lange's personal vlogging experiences, the book explores how YouTubers are creating a posthuman collective characterized by interaction, support, and controversy. In analyzing the tensions between YouTubers' idealistic goals of sociality and the site's need for monetization, Thanks for Watching makes crucial contributions to cultural anthropology, digital ethnography, science and technology studies, new media studies, communication, interaction design, and posthumanism. For its perceptive analysis of video blogging for self-expression and sociality, Thanks for Watching received the Franklyn S. Haiman Award for Distinguished Scholarship in Freedom of Expression 2020 from the National Communication Association.
