City Planning and Redevelopment Law Mary A. Vance, 1985 **Books in Series, 1876-1949** R.R. Bowker
Company, 1982 **Architecture Series: Bibliography**, 1985 Agricultural Economics and Rural Sociology Wallace C.
Olsen, 1991 The first of an eight volume series The Literature of the Agricultural Sciences this book analyzes the trends in the
published literature of agricultural economics and rural sociology during the past fifty years It uses citation analysis and
other bibliometric techniques to identify the primary journals report series and monographs of current importance to the
developed industrial countries as well as those in the Third World **Annual Survey of American Law**, 1991 Has

Bibliography of Landscape Architecture, Environmental Design, and Planning Antoinette Paris Powell, 1987 Growth
Management for a Sustainable Future Gabor Zovanyi, 2001-03-30 Previous books on growth management in the United States
favor balanced growth which suggests that growth and environmental protection represent equally legitimate objectives
Taking issue with the balanced growth position this book argues that further growth is unsustainable and that growth
management must focus on ensuring ecological sustainability The book opens with the arguments supporting current global
limits to growth and then shows that the growth management movement in the United States represents an institutionalized
form of ongoing growth accommodation which is incongruous with sustainable behavior The book also documents the
historical pro growth tendency of the planning profession and contends that this bias is impeding the necessary transition to
a sustainable future In addition it presents the standards courts use to decide the legality of growth management programs
and suggests that those standards do not present insurmountable obstacles to stopping future growth In conclusion this book
presents operational measures of ecological sustainability and argues that the growth imperative currently driving the
growth management movement must be replaced by the imperative of ecological sustainability Library of Congress
